

## Industrial power tools for:

Shipyard / Solar Energy / Construction / Petrochemical

Assembly Line / Mining Industry / Aviation Industry

Casting Foundry / Fabrication Shop / Automotive Service

Railway Construction

At **ZIPP**, we take great pride in being a leading manufacturer and supplier of high-quality, ergonomic, and durable tools for professionals across various industries worldwide. Our ISO 9001:2015 certification ensures that our products meet strict quality standards, while our focus on innovation and customer satisfaction allows us to stay ahead of the competition.

With years of experience in manufacturing and exporting professional and industrial-grade tools, we have become a trusted partner for companies across various industries, including automotive service, production, assembly line, construction, aviation, and aerospace. Our product line includes an extensive range of CE-certified tools, including professional automotive servicing air tools, industrial air tools, construction air tools, blind fastening systems and tools, and torque control systems and tools.

We are committed to creating only the best tools and accessories that exceed quality, precision, and performance expectations. Our dedication to excellence is evident in everything we do, from our extensive product testing to our exact attention to detail and superior industrial quality. As a result, our trademarked ZIPP logo is recognized worldwide as a symbol of trust and reliability.

Integrity, Respect, and Teamwork are the core values that drive us at **ZIPP**. We believe in always acting with the highest level of integrity, respecting our employees and customers, and working together to achieve our goals. By embracing these values, we have built a strong foundation for long-term growth and product integrity, allowing us to continually deliver superior tools that make work more accessible and ergonomic.

We are always looking for ways to serve our customers better. Whether you need more information about our company or products or want us to build a customized tool for your specific requirements, our professional sales team is always ready to assist you. Contact us to learn more.

Choose **ZIPP** for quality, innovation, and reliability – we look forward to serving you!

## Warranty Policy

The **ZIPP** warranty covers the original user against defective material or workmanship for one year from the date of purchase on repair parts and labor. The warranty is limited to the repair or replacement of defective parts.

**ZIPP** reserves the right to determine whether the part or parts failed due to defective material, workmanship, or other causes. This warranty does not cover failures caused by accident, alteration, and misuse.

A **ZIPP** Authorized Service Center or **ZIPP**'s Agent/Distributor must perform all warranty repairs. Any repair to the equipment other than by these authorized facilities will void this warranty.

## Mini Air Impact Wrench

### Features

- Adjustable 3 stages speed for Forward/Reverse
- Most power and compact, deliver best Power-to-Size ratio in this class
- Use for heavy automotive and truck repair, construction or assembly line.
- With new twin hammer design and hot forged alloy steel made Hammer cage & Anvil to create more torque and 3 times longer life span than traditional design.

## Twin Turbo Air Impact Wrench

Viton oil seal to prevent oil leakage excellent resistance to petroleum products.

Good high temperature and low compression characteristic.

Well balanced and lightweight (1.6 kg), with an ergonomic composite handle

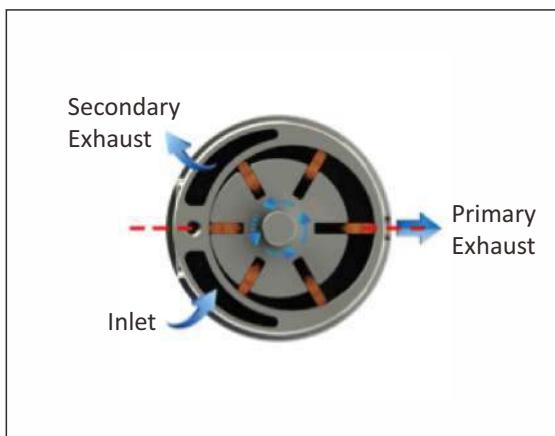

Patented double air intake motor system; delivers highest torque in absolutely compact air wrench

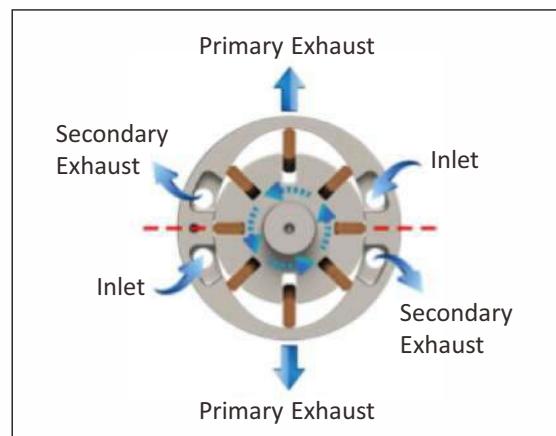

One handed operation, easy to switch Forward and Reverse by a thumb; setting with, 2 speeds of Forward and 1 speed of reverse

### Revolutionary PAT. Double Air Intake Technology

Normal Air Intake

PAT. DAI Technology

Double Air Intake (D.A.I) delivers the utmost high torque yet down the size of impact gun with lightweight.

#### Features & Benefits

- Revolutionary patented DAI Double Air Intake motor system, Innovative design increased air intake flow delivers high torque in absolutely compact machine.
- One handed switch for 2 speeds forward, 1 speed reverse.
- The shortest length for better access in tight areas.
- Ergonomics comfort handle with well-balanced for users friendly.
- Viton oil seal to prevent oil leakage under high performance and high temperature.
- Front and end rotor plate insert a thin steel plate to prevent wear, keeps high performance.
- Cold resistance against -25°C for composite motor housing.
- Complicated processing, special material of rotor blade to provide wear resistance & very long life.

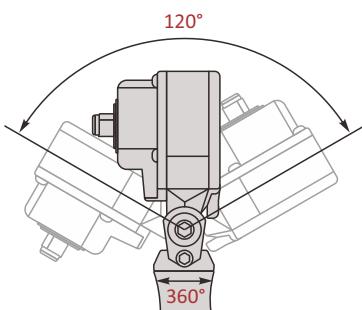

## Twin Turbo Air Impact Wrench

**ZIW1010C**  
1/2" MINI Composite Air Impact Wrench

**ZIW1020C**  
1/2" Composite Air Impact Wrench  
Nut Busting torque: 2356Nm, Bolt: 25.14mm

- 120-degree Bend-Over Hammer Head
- 360-degree free swivel Handle

**ZIW340FA**  
3/8" Drive Dual-flex  
Angle Pneumatic Impact Wrench

- Double Air Intake motor
- Twin hammer mechanism (Low vibration)
- Working torque: 400 ft-lbs
- Nut Busting torque: 963 ft-lbs (14.58 sec.)
- Sound pressure level: 90.1 dB(A) Lp A
- Vibration acceleration: 4.89 m/s<sup>2</sup>
- Bolt Capacity: 1/2" (13 mm)

**ZIW410FA**  
1/2" Drive Dual-flex  
Angle Pneumatic Impact Wrench

- Twin hammer impact wrench with pivoting head.
- Recommended torque: 450 Nm (333 ft-lbs)
- Forward and reverse: single-stage(right/left)
- Short, compact, angled design.
- Coupler plug: Nominal size 7.2(included)
- Cold insulated handle
- Powerful twin hammer mechanism

**ZIW337P**  
3/8" Twin Turbo Palm  
Air Impact Wrench  
**ZIW437P**  
1/2" Twin Turbo Palm  
Air Impact Wrench

- Powerful Twin turbo air inlet motor and twin hammer impact wrench with super low vibration and super low reaction force.
- Working torque: 450 Nm (332 ft-lbs)
- Forward and reverse: single-stage (right/left)
- Cold insulated handle

 Air Ratchet Wrench

**ZHD-7728**  
Hi-Lok® Installation Mini-Ratchet

**ZHD-7748**  
Multi-Function Ratchet Wrench

- Anvil Size: 1/4 & 3/8(6 & 10) Inch(mm)

#### Tool Advantages:

The right air ratchet for your Hi-Lok® installation for the quality seeking airframe mechanic.

- 1/4" adapter that stays attached to the tool. (With a special designed cap).
- Adjustable throttle to control the tool speed.
- 'No-mar' rubber protection.
- Thru-hole to be used with HEX key.
- Friction ring mechanism to keep the socket on the drive.
- Hi-Lok® Capacity up to - 1/4" in Al, 3/16" in Stainless Steel.

**ZP168** 1/4" Air Stubby Ratchet Wrench  
**ZP169** 3/8" Air Stubby Ratchet Wrench

**ZP161** 0.5HP  
Low Noise 1/2" Air Ratchet Wrench  
**ZP163** 0.5HP  
Low Noise 3/8" Air Ratchet Wrench

- The ZP161-LN & ZP163-LN Air Ratchets are rugged, variable speed, reversible air ratchets.
- It's paddle-style trigger provides better speed control and the polyurethane handle helps maintain temperature and insulate vibration.
- Unique ratchet head design insures the wrench free of failure.

**ZP161K / ZP163K**

**Air Ratchet Wrench Kit Specifications:**

- 1 pc Ratchet wrench
- 7 pcs Sockets
- 1 pc Nipple
- 1 pc Universal Joint
- 1 pc 75mm Extension Bar
- 1 pc Blow Molded Case

- Operating Air Pressure: 90(6.2) psi(bar)

 Air Ratchet Wrench 

- The ratchet wrench can be used in narrow working spaces and can fasten bolts and nuts easily. This special tool can be reached tight place that other air tools can not.
- Remove: First, loosen nut by wrench then take nut out with air ratchet.
- Fasten: Push trigger to position the nut then lock it with torque wrench.

# High Torque Angle Wrench

## Features

- Suitable for high precision industry, high torque accuracy.
- The tool will automatically stop when it is locked to the set torque value.
- Maximum torque reaches 120Nm.
- Externally adjustable torque adjustment ring makes it easy to adjust the torque.
- The forward and reverse switch design allows the tool to easily lock and remove screws.
- The elongated ergonomic design makes it easier for the operator to hold and reduces reaction force.
- 90-degree angle design allows operation in narrow spaces.
- Machine capability index >  $1.67 \pm 10\%$  @ according to ISO5393.
- Tool performance testing and certification according to VDI/VDE 2647.
- Specification of bit: 3/8"SQ、 1/2"SQ

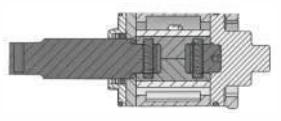

【 Note: Some models are available in 3/8" or 1/2" SQ drive. Please specify when ordering.】

## Features Of Pulse Mechanism

X-Shape Sealing improves repeatability and durability.

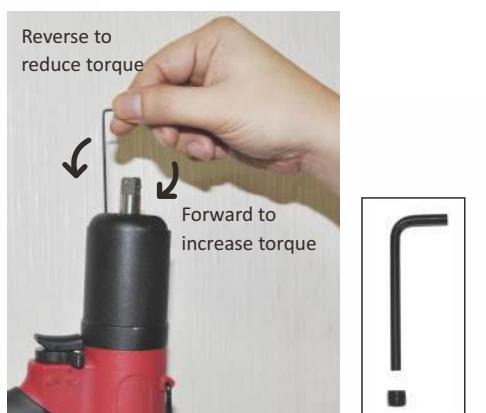

Twin drive roller blades reduce noise, vibration and improves impulse efficiency.

One hand reverse operation for Right or Left handed operators.

Low noise exhaust, 360° adjustable.

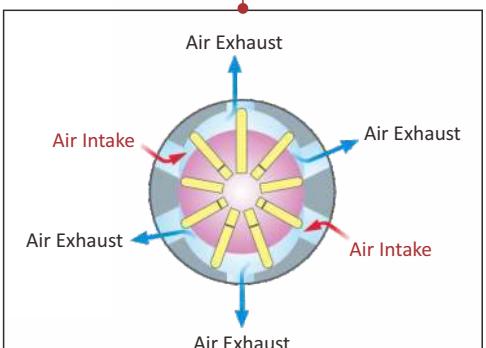

### Easy Torque Adjustment

The required torque can be easily adjusted by turning the adjust screw through the housing.

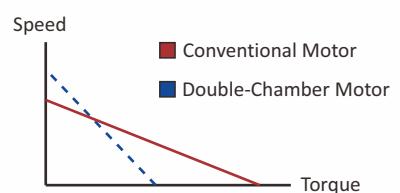

1 Piece design front end plate and cylinder improves motor efficiency.

### Double chamber air motor

9 Vanes motor design for smallest dimensions with highest power and acceleration results in a short time to reach the set torque and highest productivity.

### ZPO-1L

Synthetic pulse tool oil

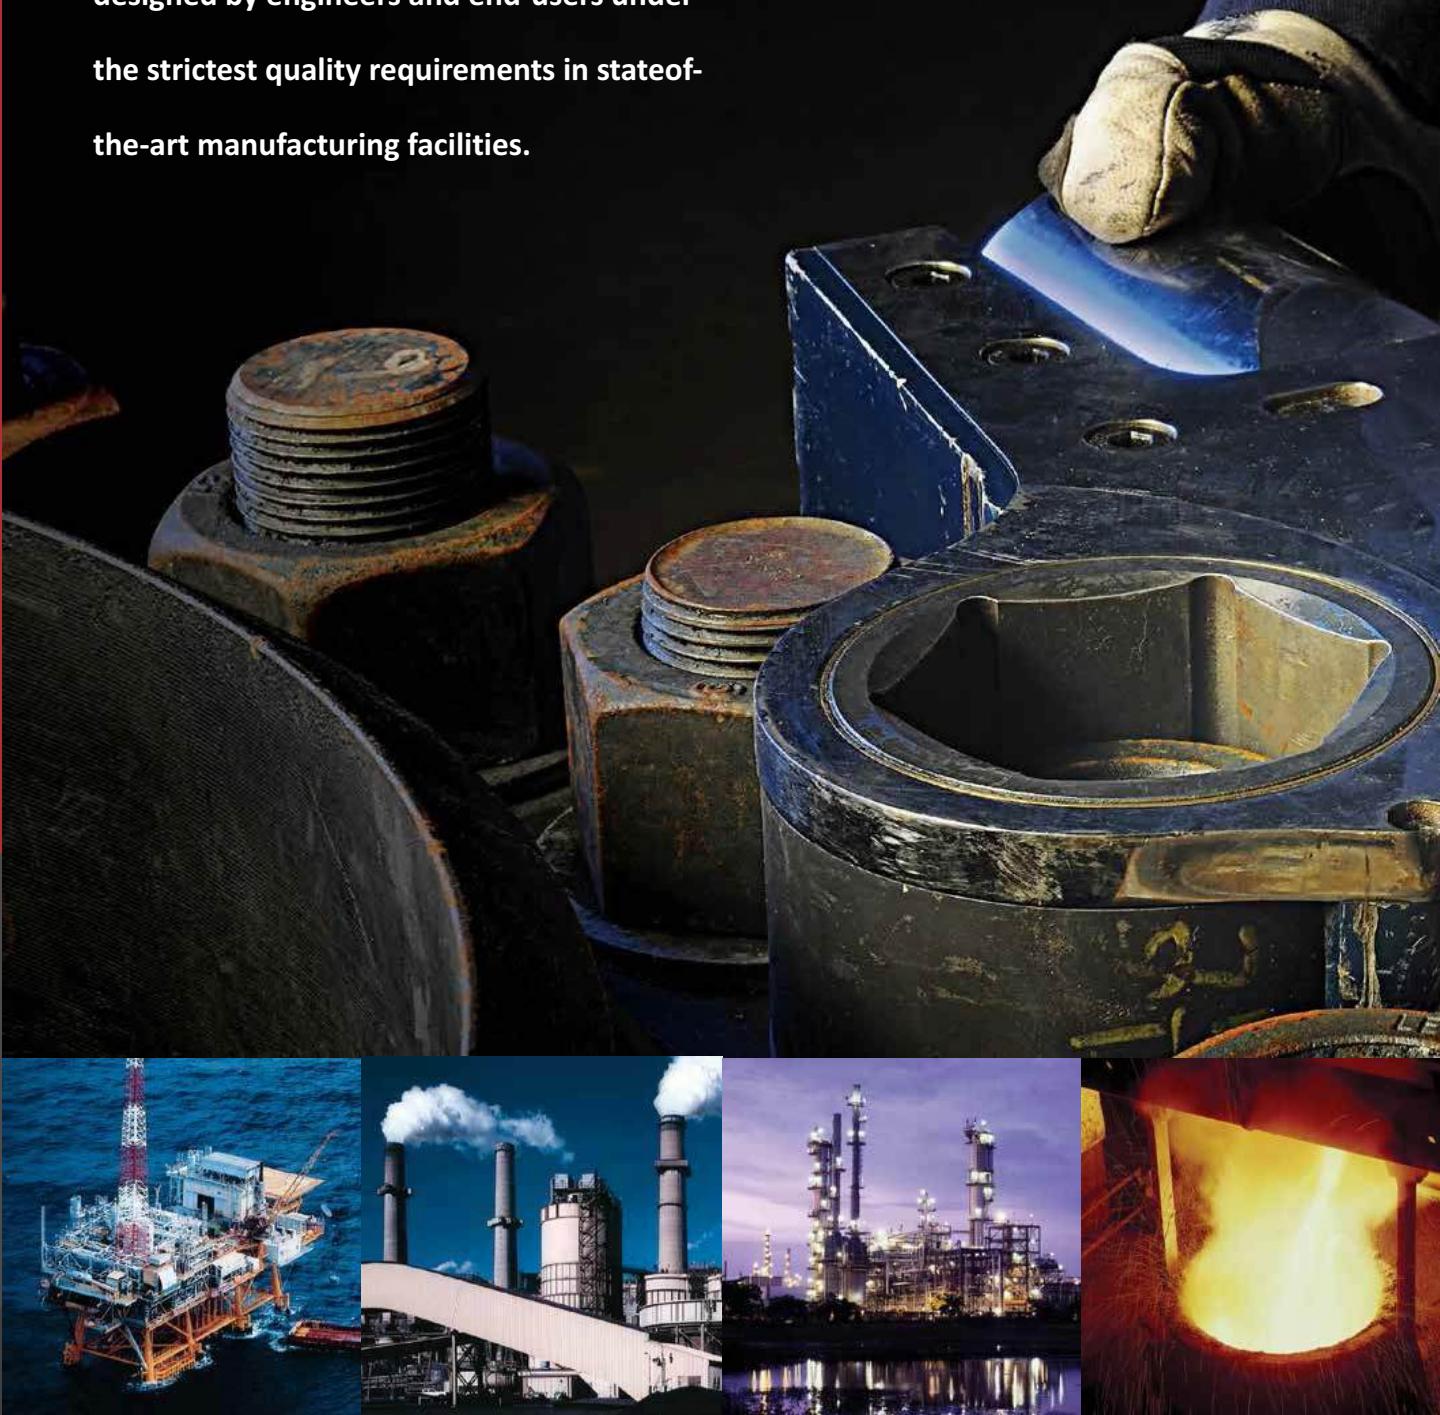

#### Features

- New ZPO-1L is a fully synthetic hydraulic oil formulated with the most advanced technology and superior than other similar oils in the field.
- Applicable to all Pulse tools.
- Exceptional torque and auto shut off performance under environment temperature as low as 15°C.
- Great wear resistance to prolong the life of metal components.

# built for service

What was born out of necessity for durable  
and safe equipment has grown into a full  
portfolio of industrial tooling products  
designed by engineers and end-users under  
the strictest quality requirements in state-of-  
the-art manufacturing facilities.

## Pneumatic Torque Wrench

### Cyclone Magnum Pneumatic Torque Wrench

The future of pneumatic torquing is here. The Cyclone Magnum features an optional digital torque readout, purpose built motor, industry-leading gear durability and numerous ergonomic features. The Cyclone Magnum is the new leader in torque accuracy (+/-5%), durability and comfort.

#### High Precision Air Motor

Performance tested on a dynamometer to verify optimum speed, power and torque

#### Robust Gear Box Design

To minimize gear tooth stress and maximize durability

#### Removable Drive — Hex Inserts

Accessories available as an added option

#### Reaction Bar

Custom options available upon request

#### Toggle Trigger Feature

For quick forward/reverse direction control

#### Thru-Handle Exhaust

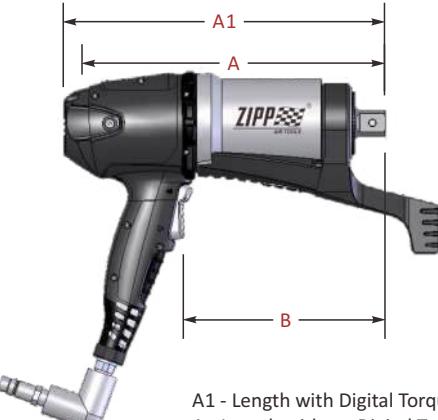

To safely direct exhaust away from user

#### Digital Display Screen

Available as an added option for quick torque and pressure readings (**ZATXXXDR-CMPLT**)

#### Multi-Axis Hose Swivel

For added ease of use and to prevent hose kinking

A1 - Length with Digital Torque Readout  
A - Length without Digital Torque Readout

Start torquing efficiently today!  
Reduce your project downtime!

## Square Drive Hydraulic Wrench

### ZLW Series Lightweight Aluminum Square Drive Hydraulic Wrench

The ZLW square drive hydraulic wrench is the most efficient and heavily used tool in any turnaround trailer. Used for disassembly and reassembly, the ZLW offers unparalleled performance and durability for getting the job completed on time and with an accurate torque control of +/-5%

Trigger Style Reaction Bar with Spline Adjustment

Proper reaction point setting increases torque accuracy.  
Quickly adjust the reaction bar to the precise reaction point

360-Degree Swivel  
Easily adjust twin lines to avoid work interference

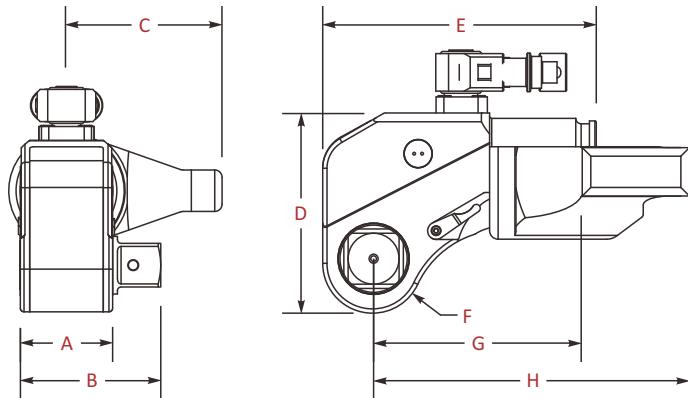

High-Strength Steel Reaction Surface

Increases tool durability, and ensures a rigid reaction surface

Compact/Lightweight  
Constructed from aircraft quality aluminum

Quick Release Drives  
Efficiently change from assembly to disassembly using the quick release design.  
Hex drives are also available

**DURABILITY...**  
original square drive has been in service since 1991.

Maximum Operating Pressure 10000 psi (700 bar)

## Direct Fit Hydraulic Wrench

### ZTL Series Low Clearance / Direct Fit Hydraulic Wrench

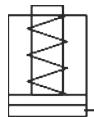

Designed to fit where no other tool will go. The Torque Link low clearance torque wrench is the best solution for tightening in a constrained space environment. The TL eliminates side loading issues through in-line reaction and offers a controlled torque accuracy of +/-3%. The integrated cylinder eliminates the need to match cylinders to links and ensures that every TL in your fleet is operationally ready to perform.

# Hydraulic Nut Splitter / Hydraulic Wedgie and Spread Cylinder

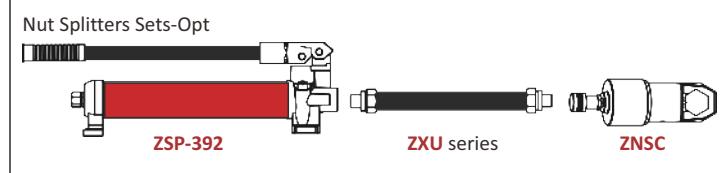

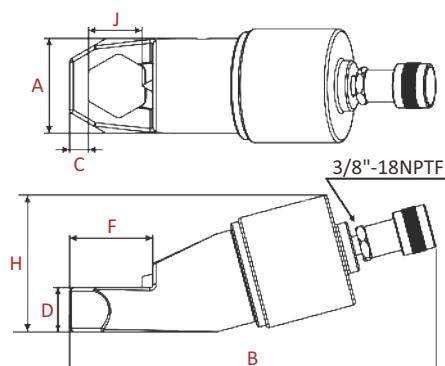

## ZNSC Series

Capacity: 5-90 ton  
Bolt Range: M6-M48  
Hex. Nut Range: 10-75 mm  
Maximum Operating Pressure: 700 bar

### Hydraulic Nut Splitter

- Specially designed "tool steel" cutter blade penetrates the nut to the precise point where it cracks, stopping short of the bolt threads.
- Applications include servicing trucks, piping industry, tank cleaning, petrochemical, steel construction and mining.
- Heavy-duty chisels can be reground.
- Single-acting, spring return cylinder.
- Unique angled head allows flush access.
- Compact and ergonomic design, easy to use.

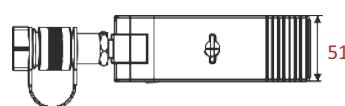

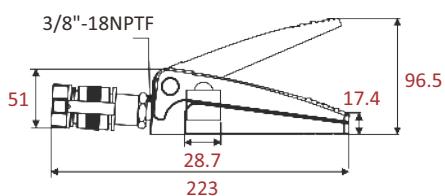

Model Number	Hex. Nut Range		Bolt Range		Capacity	Oil Capacity	Dimensions (mm)							Weight

## ZWSR Series

Capacity: 1 ton  
Tip Clearance: 17.4mm  
Maximum Spread: 96.5 mm  
Maximum Operating Pressure: 700 bar

### Hydraulic Wedgie and Spread Cylinder

- Single-acting, spring return.
- For use in very confined work areas.

Model Number	Cylinder Capacity	Tip clearance	Maximum Spread	Cylinder Effective Area	Oil Capacity	Weight
	ton(kN)	mm	mm	cm²	cm³	kg
ZWSR-1	1(8.9)	17.4	96.5	6.5	10	2.3

## Hydraulic Spreader

### ZSWR & ZSWRM Series

maximum Spread Force: 5-90 ton  
 Tip Clearance/ Max. Spread<sup>1)</sup>: 6/81 mm  
 Maximum Operating Pressure: 700 bar  
 1)Using Stepped block.

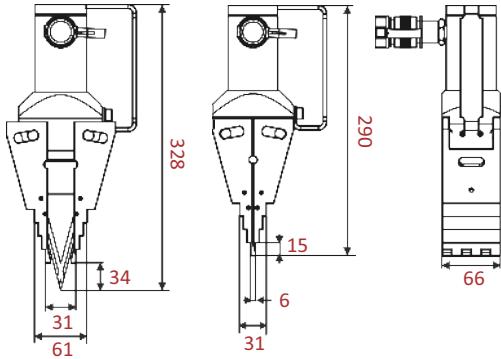

### Hydraulic Spreader

- Only requests an access gap of 0.24" (6mm).
- Automatic mechanical retraction.
- Unique interlocking: no first step bending and risk of slipping out of joint.

Model Number	Max. Spread Force	Tip clearance	Maximum Spread	Oil Capacity	Weight
	ton(kN)	mm	mm	c.c	kg
ZSWR-40	14(125)	6	81	78	7.1
ZSWR-401	14.5(145)	6	81	152	8
ZSWR-8	8(72)	6	81	-	6.5

## Hydraulic Spreader

- For simultaneously and even spreading of flange joints, 180° apart with ZSWR-40.

### ZSWF Series

Capacity: 5 ton

Tip Clearance/ Max. Spread: 23/76 mm

Maximum Operating Pressure: 700 bar

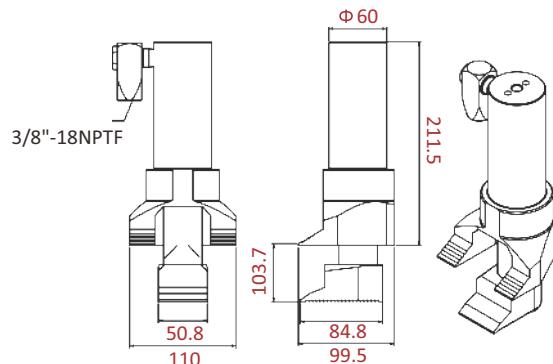

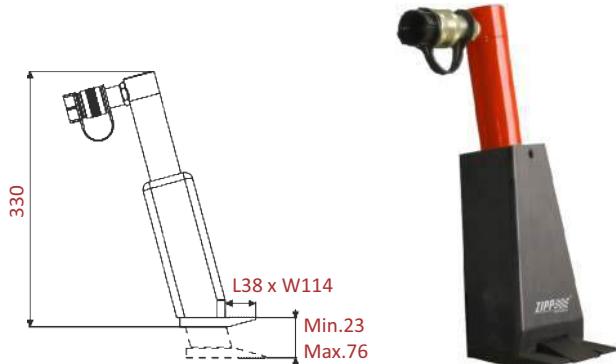

### Hydraulic Spreader

- Jaws open parallel.
- Complete metal structure.

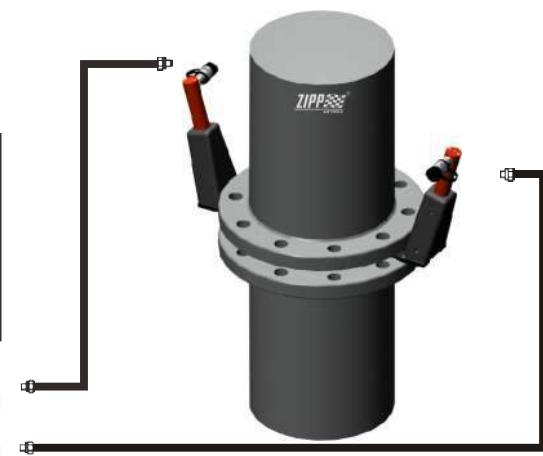

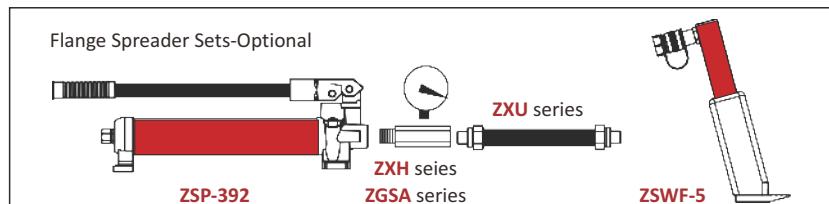

Model Number	Capacity	Spread	Oil Capacity	Weight
	ton	Min./Max. (mm)		
ZSWF-5	5	23/76	81.9	6.2
ZSWF-10ST	10	3.7/103.7	160	6.35

**ZSWF-10ST**

**ZSWF-5**

## Hydraulic Vertical Lifting Wedge

### ZLSW Series

Maximum Spread Force:

16(157) ton(kN)

Min. Clearance/ Max. Lift Ht.<sup>1)</sup>:

9.9/51.3-69.1<sup>1)</sup> mm

Maximum Operating Pressure: 700 bar

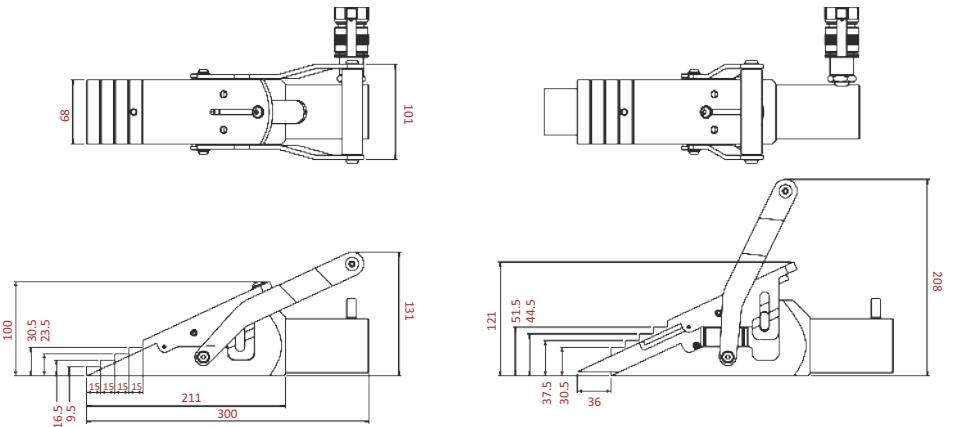

1) Using Stepped block ZSWRFSB to increase wedge lifting height 30mm.

### Hydraulic Vertical Lifting Wedge

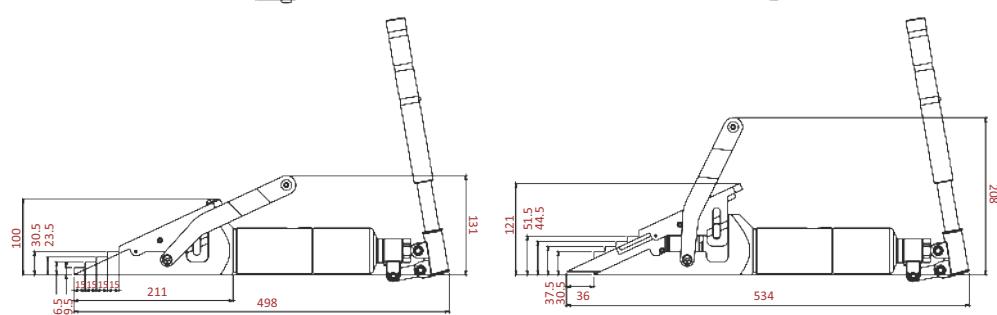

- Require 0.39" (9.9mm) access gap.
- Lifting force 16 ton at 700bar hydraulic pressure.
- Automatic mechanical retraction (single acting spring return).
- Securely raises or lowers 16 tons with no slippage.
- Lifting wedge ZLSW-16 includes safety block ZSLW-C1-16.
- Use in tandem to lift 32 tons, or 64 tons.
- 21.1mm of vertical lift from each step (maximum lift to 69.1mm with optional ZSLW-C2-16 stepped block).
- Each step can spread under full load.
- Unique interlocking wedge design, no first step bending and risk of slipping out.

**ZLSW-16**

**ZLSW-161**

Optional fitting		Equipped fitting		Control Manifolds	
ZSLW16-A07 Stepped Block	Optional ZSLW-C2-16 Stepped Block	Stock Box	ZSLW-C1-16 Safety Block	<ul style="list-style-type: none"> <li>● Control Manifold to control two or four lifting wedges simultaneously.</li> </ul>	

Model Number	Max. Spread Force	Minimum clearance Gap	Max. Lift per Stage	Max. Lift Ht.	Max. Lift Ht. Using stepped bock	Oil Capacity	Weight
	ton(kN)	mm	mm	mm	mm		
ZLSW-16	16(157)	9.9	21.1	51.3	69.1	78	7
ZLSW-161	16(157)	9.9	21.1	51.3	69.1	152	7

## Hydraulic Fixed Flange Alignment Tool

### ZFSA Series

Minimum Bolt Size: 16-31.5 mm

Flange Wall Thickness: 16-31.5 mm

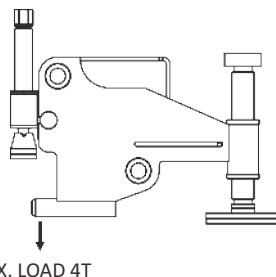

Capacity: 1-10(10-90) ton(kN)

Maximum Operating Pressure: 700 bar

(Just for ZSFA-9TE)

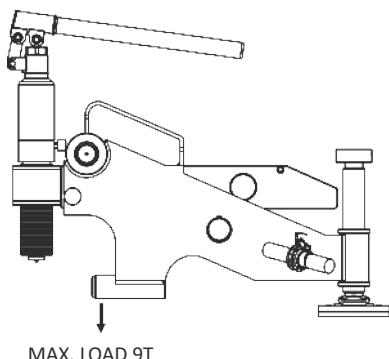

### Hydraulic Fixed Flange Alignment Tool

- The Flange Alignment tools can be used to align or re-align flange joints during pipework construction, commissioning or during routine maintenance.
- The tool is attached to the flange joint where misalignment is at its greatest and then simply push and pull the flanges into correct alignment (except ZSFA-9TE).
- The Flange Alignment tools rectify twist and rotational misalignment quickly, safely and without the need for an external power source.
- Appropriate for use on most ANSI, API, BS and DIN flanges.
- No slings, hooks or lifting gear required.
- Can be installed and used in any position (horizontally or vertically).
- Portable, lightweight design enables easy transport and use, even in remote locations.

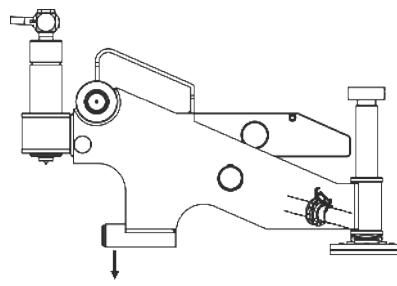

### ZFSA-4TM

For use on medium diameter, medium pressure flanges.  
Mechanical Fixed Flange and Rotational Alignment Tool.

### ZFSA-9TM

For use on larger diameter, higher pressure flanges.  
Mechanical Fixed Flange and Rotational Alignment Tool.

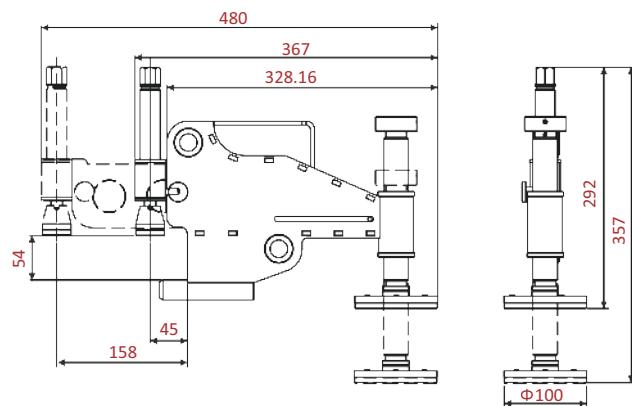

### ZFSA-9TE

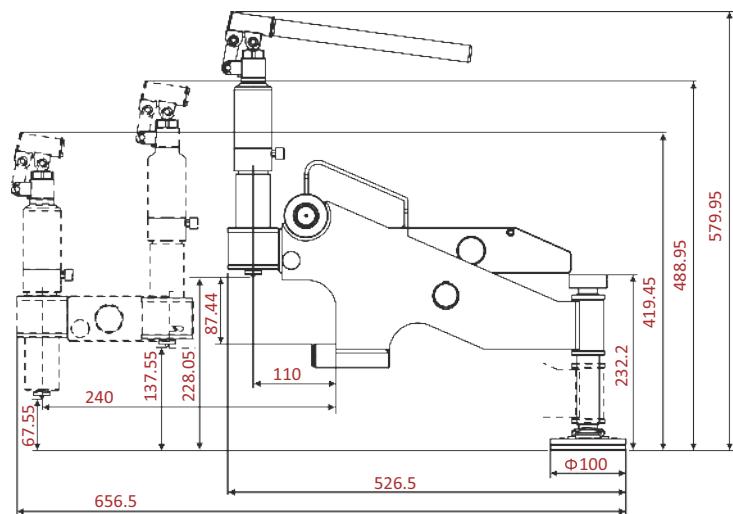

For use on larger diameter, higher pressure flanges.  
Hydraulic Fixed Flange and Rotational Alignment Tool.

## Square Drive Wrenches

### ZSMX

#### Square Drive Wrenches

Lightweight High Power Wrench for Sockets or Allen-key

- Dual Pawl Mechanism-Heavy duty.
  - 360 degree Reaction Arm-Easy to working in any position.
  - One-way Ratchet-the only way to assure hands-free and multi-tool operation.
  - Aviation material Body housing-Aluminum-Titaniumalloy and high strength steel.
  - Anti-Rust Finish-Special surface treatment.
  - Small Operating Radius.
  - "Drop Hole" will protect over pressure operating.
- Torque Accuracy ±3%  
Repeatability 100%

	How to build Torque Wrench drive and socket		
	Model DS Hex. Socket size	Example: ZSMX-3DS1-13/16"	
	Model AH Hex. Drive size	Example: ZSMX-3AH32mm	
	Z6PTS- Drive size - Socket size	Example: Z6PTS-1"-50	
	ZCS- Drive size - Socket size	Example: ZCS-1"-2-3/4"	
	Z12PTS- Drive size - Socket size	Example: Z12TPS-1"-50	
	ZOPS- Drive size - Socket size	Example: ZOPS-1"-6PT50	
	ZSMX-4F Square socket Hex. Drive	Example: ZSMX-4F1"-6M22mm

<b>①</b>		<b>High-strength Aluminum Alloy Housing</b> ZSMX series housing processed from solid block of 7075 AQ Aluminum and anti-rust finish-special surface treatment.
<b>②</b>		<b>Strong piston Assembly</b> Smooth leak proof functioning of enclosed alloy steel piston and single seal provides required torque.
<b>③</b>		<b>Driving Segment</b> Ensures tool will never lock up.
<b>④</b>		<b>Anti-Back &amp; Lock</b> Allows hands free working.
<b>⑤</b>		<b>Laser Engraved Torque Chart</b> Two sided shroud is laser engraved with the torque chart for the ZSMX series.
<b>⑥</b>		<b>Multi-Tooth Driving &amp; Ratchet Assembly</b> Strong strength, high accuracy and best speed.
<b>⑦</b>		<b>Drive Plate</b> High strength alloy drive plate for maximum life. Allows small nose radius for the tool.
<b>⑧</b>		<b>Square Driving</b> "Push through" Square Drive that easily pushes through to switch from loosens to tighten.
<b>⑨</b>		<b>Direct Housing Reaction</b> Allows use without reaction arm.
<b>⑩</b>		<b>Steel Reaction Boot</b> Replaceable pad allowing on site change over. Protects costly replacement of reaction arm.
<b>⑪</b>		<b>Long Length Reaction Arm</b> Long length reaction arm allows multi positioning. Allows taking reaction on most applications.
<b>⑫</b>		<b>Reaction Arm Release Button</b> Housed within the reaction arm as a safety feature, protecting the arm from accidental disengagement.
<b>⑬</b>		<b>360°*180° Swivel-Hose-Free Operation</b>

## Hydraulic Direct Fit Wrench

### ZSRX

Double-Acting, Hexagon Cassette  
Wrenches

Lightweight, Low Profile & Slim Nose  
Radius

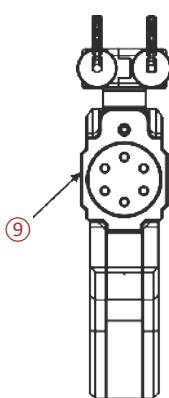

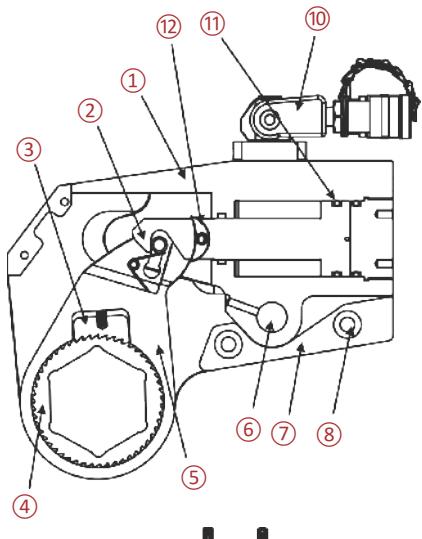

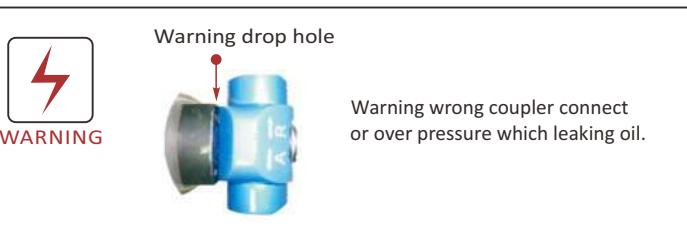

- Tool body can be Reaction Arm, easy to work.
  - Bronze bushing anti galling.
  - "Drop Hole" will protect over pressure operating.
- Output Accuracy:  $\pm 3\%$ ,  
Repeatability: 100%

Opt  
Removable handle

One plug to connect

	<b>High Strength Body</b> Cylinder and Link Body are manufactured from high grade and strength alloy. Rust-resistant surface finish.
	<b>Engagement Plunger</b> Smooth leak proof functioning of enclosed alloy steel piston and engaged hook head.
	<b>Never Lock Drive Segment</b> Never lock drive segment does not let the wrench lock and thus eliminates the requirement of a ratchet release mechanism.
	<b>Multi Tooth Ratchet Assembly</b> Strong strength, high accuracy and best speed.
	<b>Drive Plate</b> Single piece high strength alloy drive plate for maximum life. Allows small nose radius for the tool.
	<b>Multi-Tooth Driving &amp; Ratchet Assembly</b> Strong strength, high accuracy and best speed.
	<b>Steel Link Pin</b> One simple pin for cassette link to cylinder engagement without using any additional or special tool.
	<b>In-line Reaction Pad</b> This ensures torsion free reaction during use.
	<b>Completely Flat Design Cylinder &amp; Link</b> Equal width of cylinder and link ensures tool sits flat on flange surface. Allows use in most confined areas.
	<b>360°*180° Swivel-Hose-Free Operation</b>
	<b>Piston Seal</b> High temperature Polyurethane seals ensure years of maintenance free operation.
	<b>Sliders</b> Reduce friction and prevent wear on the piston.

# Hydraulic Air Pump

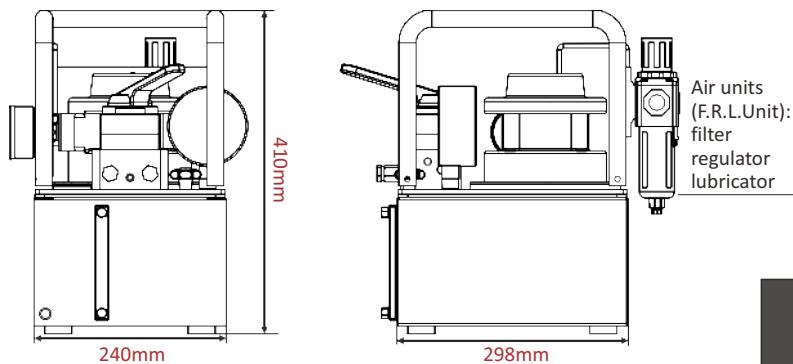

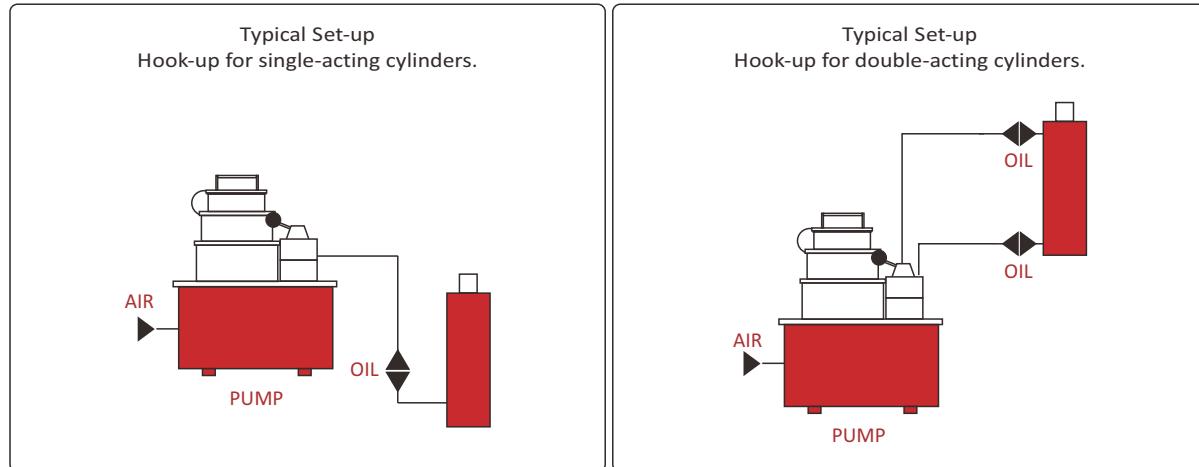

## ZSPA-554TQJ

### Hydraulic Air Pump

- 2-speed pump drives single -or double-acting cylinders, delivering a high volume of oil .
- Air is the preferred source of power which supply require 3~8bar.
- Max. Pressure: 700bar.
- External adjustable pressure regulator
- Powerful 4 hp motor starts under load.
- Retract side internal relief valve protects tool.
- Just use with Hydraulic lift applications.
- Stainless frame easy to carry.

**Optional**  
G= Pressure Gauge

BASIC PUMP VALVE	Used with cylinder		Valve Function

## Hydraulic Electric Pump

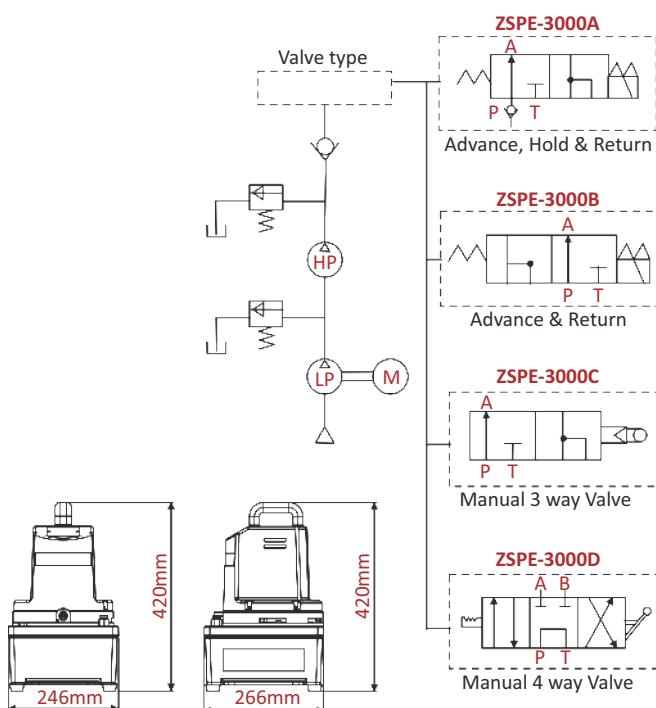

### ZSPE-3000 Series

Reservoir Capacity: 3000-6000c.c

Flow at rated pressure: 4-0.4 L

Motor Size: 0.37kW (0.5 hp)

Maximum Operating Pressure: 700 bar

#### Control Valve

- A single-acting cylinder must be powered by a pump with a 3-way solenoid (built-in) or manual valve.
- Compare Model: ZSPE-3000APS (solenoid) or ZSPE-3000CPS (manual)

- A double-acting cylinder must be powered by a pump with a 4-way valve.
- Compare Model: ZSPE-3000D

Model Number	Motor	Max. Pressure	Pressure Rating		Output flow rate		dB(A) at Idle and 700bar	Weight include oil	Dimension
			1 <sup>st</sup> stage	2 <sup>nd</sup> stage	1 <sup>st</sup> stage	2 <sup>nd</sup> stage			
	kW(hp)	psi(bar)	psi(bar)		L(min)

## Hydraulic Electric Pump

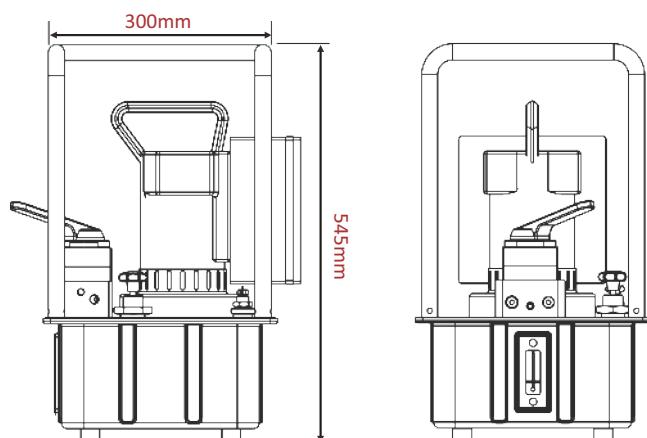

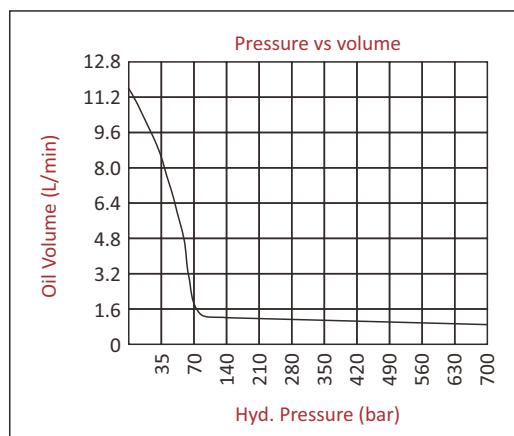

### ZHEP-665 Series

Reservoir Capacity: 8-20L

Flow at rated pressure: 11.3-0.9 L

Motor Size: 0.84kW (1-1/8 hp)

Maximum Operating Pressure: 700 bar

### Hydraulic Electric Pump

- 2-speed pump drives single -or double-acting cylinders, delivering a high volume of oil .
- Air is the preferred source of power which supply require 3~8bar.
- Max. Pressure: 700bar.
- External adjustable pressure regulator
- Powerful 4 hp motor starts under load.
- Retract side internal relief valve protects tool.
- Just use with Hydraulic lift applications.
- Stainless frame easy to carry.

# High Pressure Hydraulic Hoses

## ZXU

### High Pressure Hydraulic Hoses

- Tube: Oil resistant synthetic rubber.
- Cover: Oil, abrasion and weather aging resistant synthetic rubber.
- Temp. Range: -40°C~+93°C
- Max. change in length: -4%~+2%(under W.P.)
- Reinforcement: Two layers of steel wire braids.

\*Operating temperature in excess of 93°C may materially reduce the service life of hose assembly.

## Hydraulic Electric Pump for Torque Wrench

### ZSPE-554

Hydraulic Electric/Torque Wrench Pump

- External adjustable pressure regulator.
- Retract side internal relief valve protects tool.
- ZSPE-554TQ series: just use with Hydraulic Torque Wrench.
- ZSPE-554TQJ series: just use with Hydraulic lift applications.
- Opt eight 1/4" ports (include female and male couplers with dust cap), that can synchronize work for 4 hydraulic wrench.
- It can be set automatic stop moving as motor idle running till 20, 40, 60 seconds and pressure release.
- Safety start: After stopping, need to press another start button to continue.
- Heat Exchanger Kit: Design air cooling to avoid pump overheating and costly repair from long work periods.

##### O.Type

TQ= just use in Torque Wrench

TQJ= using in lift applications

##### 1.Voltage

1= 115V

2= 230V

##### 2.Hz

5= 50Hz I 60Hz

##### 3.Phase

1= single phase

##### 4.Reservoir (Lx0.26= gal)

8= 8L(2.1 gal)

20= 20L(5.2gal)

\*User can order suitable reservoir.

##### 5.Manifold (include 1/4" male-female coupler)

1= 1 manifold with 1 male and 1 female coupler

2= 1 manifold with 2 male and 2 female couplers (standard)

3= 1 manifold with 3 male and 3 female couplers

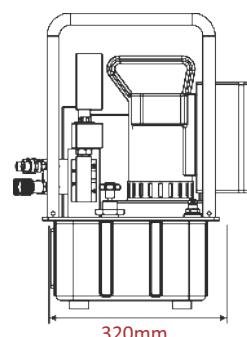

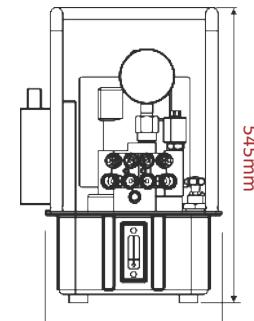

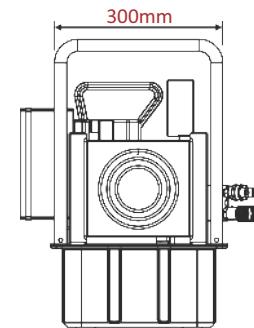

4= 1 manifold with 4 male and 4 female couplers

##### 6.Optional

W= Wheel

O= Cool system

G= Pressure Gauge

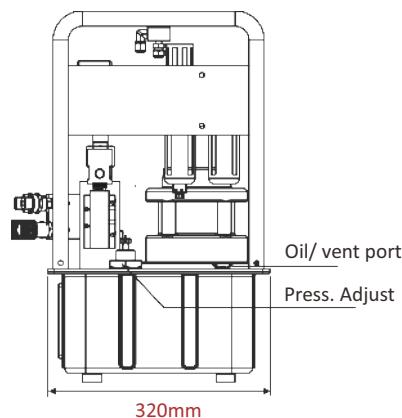

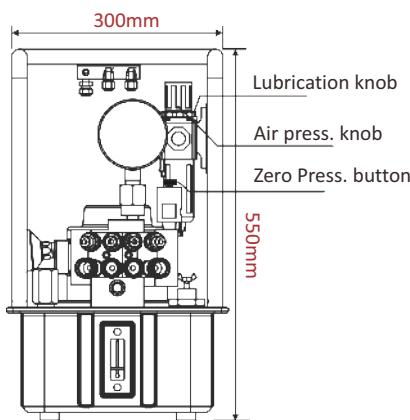

Model Number	rpm	dB(A) at Idle and 700bar	Motor	Amp at 700bar	Flow rate @115VAC(l/min)					oil tank	Usable oil	Weight with oil

## Hydraulic Air Pump for Torque Wrench

### ZSPA-554

Hydraulic Air/Torque Wrench Pump

- Powerful 4 hp motor starts under load.
- Use where air is the preferred source of power.
- Max. Pressure: 700bar
- Two speed high performance pump.
- External adjustable pressure regulator.
- Retract side internal relief valve protects tool.
- Opt eight 1/4" ports (include female and male couplers with dust cap), that can synchronize work for 4 hydraulic wrench.
- Use for Hydraulic torque Wrench.
- Pneumatic remote control with 5M cord.

Optional  
G= Pressure Gauge

**ZSPA554TQ-A-A1**  
Pneumatic remote

Model Number	Air Supply Req'd	rpm	dB(A) at Idle and 700bar	Motor	Flow rate (l/min)					oil tank	Weight with oil
					hp	0(bar)	70(bar)	350(bar)	700(bar)		
ZSPE-554	1.4M <sup>3</sup> /min @6 bar	3000	75	4	7.4	1.3	1.1	0.9	8	L	kg

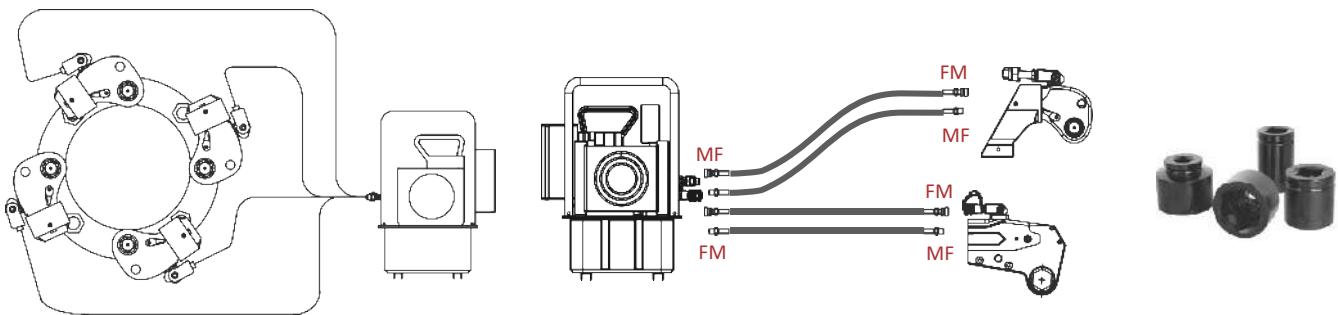

#### Torque Wrench Hoses:

Use ZIPP ZXU22W series torque wrench hoses with every model torque wrench to ensure the integrity of your hydraulic system.

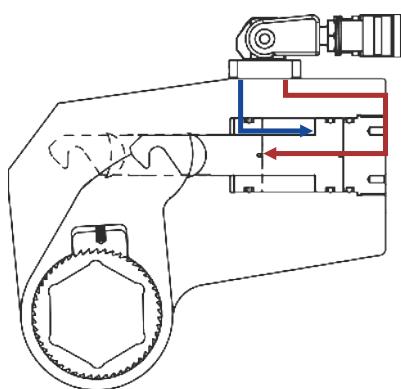

Model Number	Tube Dia.	Length		Hose End		W.P	B.P
		inch	ft	m	inch		
ZXU22W-6M2NM2NM	1/4	20	6	1/4	1/4	700	2800
ZXU22W-12M2NM2NM	1/4	40	12	1/4	1/4	700	2800

## Hydraulic Air Pump for Torque Wrench

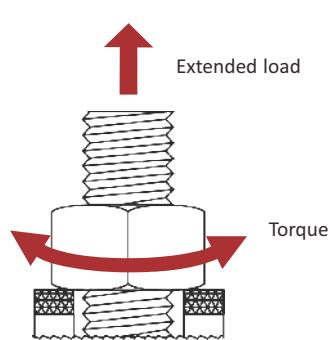

### Basic System Set-up

- A. 1 Hydraulic Torque Wrench using Electric Pump +1 Square Drive Wrench +Socket +2 hoses
- B. 1 Hydraulic Torque Wrench using Electric Pump +1 Low Profile Wrench +2 hoses
- C. 1 Hydraulic Torque Wrench using Electric Pump +1~4 Square Drive Wrench (+Socket) or 1~4 Low Profile Wrench +2~8 hoses

**Oil Path**  
 ← Advance  
 → Return

**Wrench Torque Formula**  
 $T = F \times r$   
 Torque = Force x Lever Arm Length  
 Ex.: 1000kN x 60mm = 60000 N.m

**Bolt Load- Torque Formula**  
 $T = K \times D \times N$   
 T: Torque  
 K: Friction Factor  
 D: Bolt O.D  
 N: Bolt extended Load = Stress area x Yield strength x Percent of Yield  
 Ex.: M16

$$N = \frac{0.7854 \times (16 - 0.9382 \times 2)^2}{\text{Stress area } \text{mm}^2} \times \frac{896}{\text{Yield strength } \text{N/mm}^2} \times \frac{80\%}{\text{Percent of Yield}} / 1000 = 112 \text{N}$$

$$T = \frac{0.14}{\text{Friction Factor}} \times \frac{16}{\text{Bolt O.D } \text{mm}} \times \frac{112 \text{N}}{\text{Bolt Load}} = 252 \text{N.m}$$

### Nominal thread size [mm]

The data above is based on bolts lubricated to manufacturer's specifications.

Due to a variation in friction, we recommend in extreme cases to check with the bolt manufacturer, as this chart represents a guideline only.

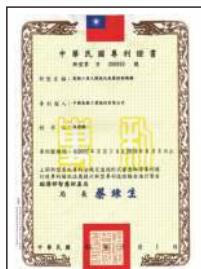

## Full Aluminum Housing Series

### Applications

- Wherever the fastening methods like: welding, sheet metal screw, bolt, nut, washer, tubular, semi-tubular and solid rivets and adhesives are applied, can be substituted by blind rivets.
- All models above are good for setting standard blind rivets and structural blind rivets.

# Air Hydraulic Blind Rivet Installation Tool

## Features

- Module unit mechanism enables more common parts to be used in similar designed tools.
- Designed with patented "Module units assembled in composite clam shell housing" for operator's comfort and ease of service.
- Ergonomic texture coated composite housing for operator's comfort.
- Build-in exhaust muffler to minimize the tool noise efficiently.
- Rocker type trigger for ease of operational control.
- Perfect tool for automotive & general industries.
- Optional Jaw Pusher & Nose Pieces for small size rivets.

Patented Vacuum Mandrel Collection System holds the rivets in the Nosepiece regardless of tool position also assure perfect shock absorption.

## Applications

- Wherever the fastening methods like: welding, sheet metal screw, bolt, nut, washer, tubular, semi-tubular and solid rivets and adhesives are applied, can be substituted by blind rivets.
- All models above are good for setting standard blind rivets and structural blind rivets.

## Full Composite Housing Series

### Features

- Built with patented "Module units assembled in composite clam shell housing" for the ease of tool service.
- Patented "Broken mandrel vacuum collection system" for the cleanliness and safety of work area.
- Forged and heat treated aluminum alloy made Hydraulic Section for the best rigidity.
- Stainless steel made Air Cylinder for the best rigidity and durability of the tool.
- Easy adjustable Head & Nut designed for obtaining the most effective stroke.
- Ergonomic texture coated composite housing for operator's comfort.
- Equipped with safety valve to avoid damage due to over pressure.
- Swivel air inlet design for maneuverability of works.
- The lightest model among compatible designs.

# Air Hydraulic Blind Rivet Installation Tool

## Features

- Features with the most advanced patented digital module to enable operators know the rivet tool setting capacity instantly under various air supply condition and the rivet setting cycles performed during their working period.
- It will also remind operators when to do service or maintenance to the tool in proper interval.
- It will help to cease the controversy about warranty issue especially if the tool has been misused or abused with abnormal high air pressure which exceeds the design specification.
- Built with patented "Module units assembled in composite clam shell housing" for the ease of tool service.
- Patented "Broken mandrel vacuum collection system" for the cleanliness and safety of work area.
- Forged and heat treated aluminum alloy made Hydraulic Section for the best rigidity.
- Easy adjustable Head & Nut designed for obtaining the most effective stroke.
- Ergonomic texture coated composite housing for operator's comfort.
- Swivel air inlet design for maneuverability works.

● Operating Air Pressure: 90PSI/6.2bar

● Air Inlet Size: 1/4 inch-NPT/PT

● Min. Hose Size: 3/8"(10mm)

## Blind Rivet Installation Tool

### Features

- Sets 3/32" to 3/16" rivets with up to 1983 lbs. of pulling capacity
- Tougher and durable
- Easy operation
- Aluminum housing, strong & light weight.
- Simply structure, easy to service.
- Power by air only, no need refill hydraulic oil.
- Quick cycle times, 2.0 seconds on average.

## Air Hydraulic Blind Rivet Installation Tool

### Features

- Module unit mechanism enables more common parts to be used in similar designed tools.
- Designed with patented "Module units assembled in composite clam shell housing" for operator's comfort and ease of service.
- Ergonomic texture coated composite housing for operator's comfort.
- Build-in exhaust muffler to minimize the tool noise efficiently.
- Rocker type trigger for ease of operational control.
- Perfect tool for automotive & general industries.
- Optional Jaw Pusher & Nose Pieces for small size rivets.

### Applications

- Wherever the fastening methods like: welding, sheet metal screw, bolt, nut, washer, tubular, semi-tubular and solid rivets and adhesives are applied, can be substituted by blind rivets.
- All models above are good for setting standard blind rivets and structural blind rivets.

**DO NOT apply air pressure over 110 psi / 7.5 bar to these tools.**

\*Please refer to the blind rivet specification to ensure the tensile strength is lower than the traction power of the model you select.

Model	Traction Power lbf(kgf)	Stroke Length inch(mm)	Net Weight lbs(kgs)	Operating Air Pressure psi(bar)	Min. Hose Size inch(mm)	Air Inlet Size inch-NPT/PT	Nosepieces Equipped inch(mm)

# Aviation Nut-Plate Installation Tool

## Features

- The ZT0520CM is an air hydraulic tool designed for the installation of nut-plate rivets.
- Optional feature (D) for the most advanced patented digital module to enable the operators know the rivet tool setting capacity instantly under various air supply condition and the rivet setting cycles performed during their working period.
- It will also remind operators when to do service or maintenance to the tool in proper interval.
- It will help to cease the controversy about warranty issue especially if the tool has been misused or abused with abnormal high air pressure which exceeds the design specification.
- Built with patented "Module units assembled in composite clam shell housing" for the ease of tool service.
- Patented "Broken mandrel vacuum collection system" for the cleanliness and safety of work area.
- Forged and heat-treated aluminum alloy made Hydraulic Section for the best rigidity.
- Swivel air inlet design for maneuverability works.
- Please refer to the chart below to select the proper pulling heads. All heads need to purchase separately.

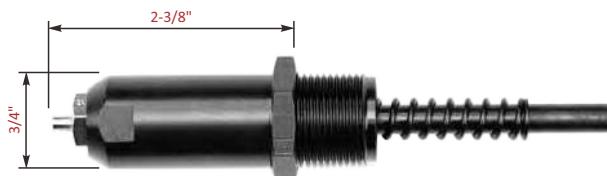

**ZT0520CM**

#### Notes:

- See Pulling Head Tool Sheet for other configurations and fastener capabilities.
- ZT0922CM is only recommended for -4 and -5 diameter MAXIBOLT® fasteners due to power limitations.
- H747-456, H753A-456 and H782 can to be re-configured in order to install -6" aluminum fasteners; more information at [www.cherryaerospace.com](http://www.cherryaerospace.com) by selecting "Tooling Manuals" from the "Technical" drop down menu.
- Grip capability may be extended by "double stroking".
- Grip as identified by NAS1719, NAS1720, and NAS1721 (see Standards Page for the fastener to be installed).

## Features

- The ZT1914CM & ZT3213CM air hydraulic tools are designed for the installation of Lock Bolt & Blind Bolt type fasteners.
- Optional feature (D) for the most advanced patented digital module to enable the operators know the rivet tool setting capacity instantly under various air supply condition and the rivet setting cycles performed during their working period.
- It will also remind operators when to do service or maintenance to the tool in proper interval.
- It will help to cease the controversy about warranty issue especially if the tool has been misused or abused with abnormal high air pressure which exceeds the design specification.
- Built with patented "Module units assembled in composite clam shell housing" for the ease of tool service.
- Patented "Broken mandrel vacuum collection system" for the cleanliness and safety of work area. ( for ZT1914CM )
- Forged and heat-treated aluminum alloy made Hydraulic Section for the best rigidity.
- Swivel air inlet design for maneuverability works.
- Please refer to the chart below to select the proper pulling heads. All heads need to purchase separately.

More details about these pulling heads may be found on our website at [www.cherryaerospace.com](http://www.cherryaerospace.com) by selecting "Tooling Manuals" from the "Technical" drop down menu.

## Aviation Split type Lock Bolt & Blind Bolt Installation Tool

### Features

- The ZT4125SCM is a split type air hydraulic tool designed for the installation of Lock Bolt & Blind Bolt type fasteners.
- The advantage of this split type with 3M length of hydraulic hose set design is to have the power unit placed on the floor, keep it away from the structure, easier access in space constricted areas of the aircraft and more ergonomic to work with for the operator.
- Forged and heat-treated aluminum alloy made Hydraulic Section for the best rigidity.
- Swivel air inlet design for maneuverability works.
- Please refer to the chart below to select the proper pulling heads. All heads need to purchase separately.

**DO NOT apply air pressure over 110 psi / 7.5 bar to these tools.**

\*Please refer to the blind rivet specification to ensure the tensile strength is lower than the traction power of the model you select.

\*Below specification are measured with 1 meter length, 1/8" I.D hydraulic hose

Model	Traction Power lbf(kgf)	Stroke Length inch(mm)	Net Weight lbs(kgs)	Nosepieces	Max. Capacity
ZT4125SCM	9039(4100)	63/64(25)		Pulling head need to purchase separately.	Max. 3/16" (4.8mm) Cherry Max Rivet

- Operating Air Pressure: 90PSI/6.2bar
- Air Inlet Size: 1/4 inch-NPT/PT
- Min. Hose Size: 3/8"(10mm)

## PULLING HEAD AVAILABILITY

Pulling heads are not furnished with riveter and must be ordered separately.

\*These parts require the 552 adapter when used on ZT4125SCM.

Parts with an asterisk fit directly on the ZT1914CM.

NOTES: Parts with no asterisk fit directly on ZT1914CM.

After the H513 in part numbers, S = Swivel, R = Self Releasing C = Chisel Nose Straight Lock bolt pulling head part numbers indicate pulling head length and diameter.

Example: In Part No. H513-05-35 the -05 indicates -5 diameter and -35 indicates that the pulling head extends 3.5" beyond gun line.

After H563, SP = Short Pintail

## Rivet Nut Adaptor Kit

### Features

- A revolutionary accessory to insert rivet nuts.
- Simply attach this adaptor to your cordless, electric & pneumatic drills become a rivet nut tool.
- Can set up to max. M10 (3/8"-18) Round / Aluminum.

### Applications

- Automotive aftermarket
- Small aircraft and boat repair
- Outdoor rivet nut insert jobs when there is no air supply.
- Residential and commercial construction
- General facility maintenance and repair

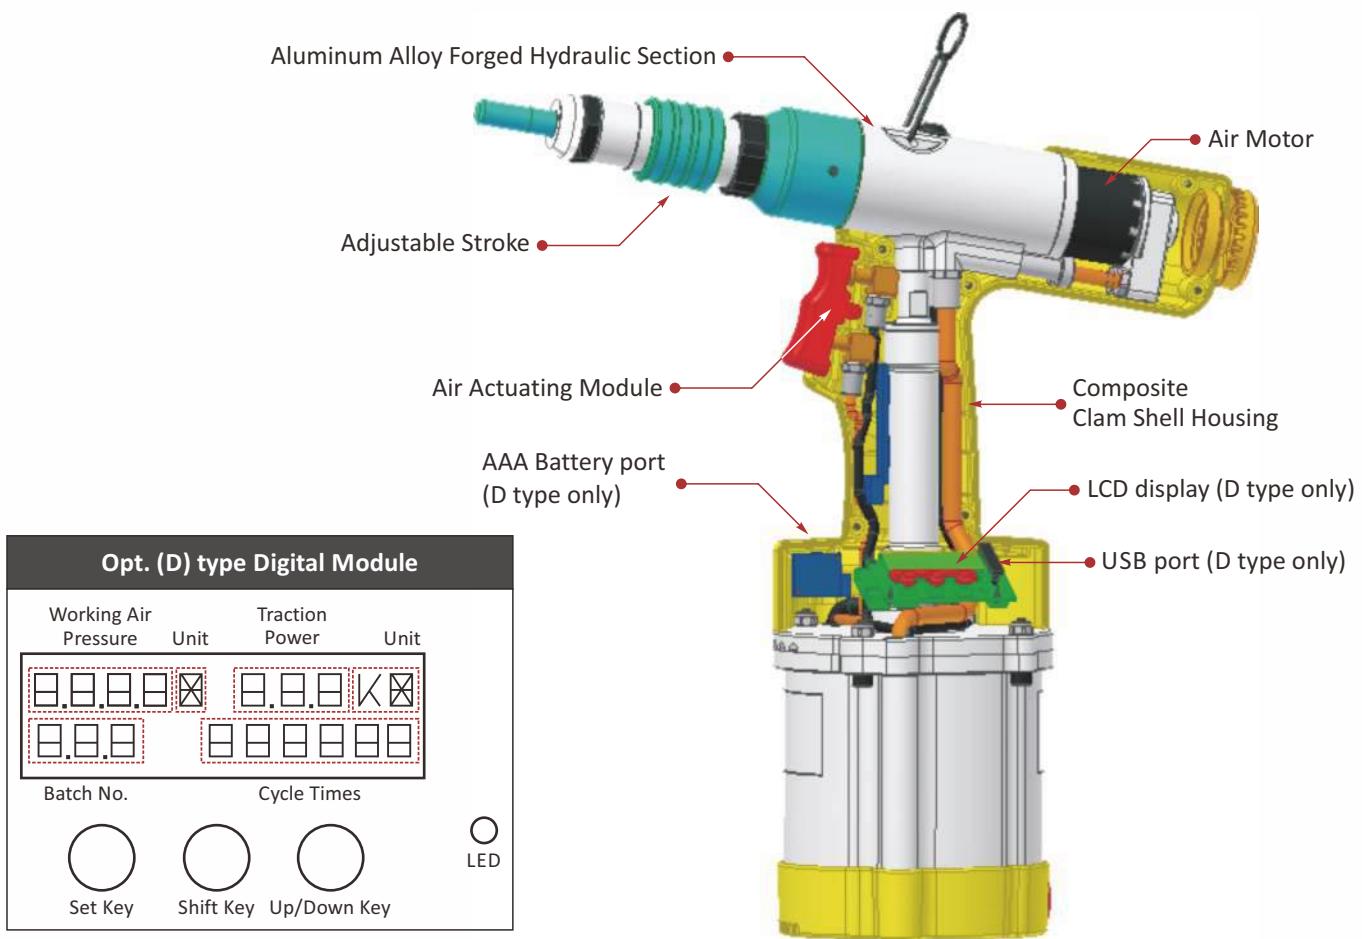

Model	Min. torque strength ft/lbs(Nm)	Max. rpm	Nut Nosepiece	Hex shank inch(mm)	Dimension mm

ZNRA-410DE For Imperial	73.7(100)	800	#8-32, #10-24, #10-32 1/4"-20, 5/16"-18, 3/8"-16	1/4(6.35)	59 x 180

# Air Hydraulic Rivet Nut / Rivet Stud Installation Tool

## Features

- Optional (D) type Digital Module to enable operators know the tool's force instantly under various air supply condition and the cycle counter performed during their working period. It also remind operators when to do service or maintenance in proper interval.
- It will help to cease the controversy about warranty issue especially if the tool has been misused or abused with abnormal high air pressure which exceeds the design specification.
- Built with patented "Module units assembled in composite clam shell housing" for the ease of tool service.
- Forged and heat treated aluminum alloy made Hydraulic Section for the best rigidity.
- Easy adjustable Head & Nut designed for obtaining the most effective stroke.
- Ergonomic composite housing for operator's comfort.
- Swivel air inlet design for maneuverability works.

# Air Hydraulic Installation Tool

## Features

- Accepts HUCK® - C6L®, Magna Grip®, Magna-Lok®, BOM® & Bobtail® noses or AVDEL® - Avdelok®, Maxlok® & Neobolt® noses.
- Optional (D) type Digital Module to enable operators know the tool's force instantly under various air supply condition and the cycle counter performed during their working period.
- It also remind operators when to do service or maintenance in proper interval.
- It will help to cease the controversy about warranty issue especially if the tool has been misused or abused with abnormal high air pressure which exceeds the design specification.
- Built with patented "Module units assembled in composite clam shell housing" for the ease of tool service.
- Forged and heat treated aluminum alloy made Hydraulic Section for the best rigidity.
- Ergonomic composite housing for operator's comfort.
- Swivel air inlet design for maneuverability of works.

### Standard Nose Assembly

### ZT2318-HA(D)

1/4" Air Hydraulic Installation Tool (Digital type)  
Nose sold separately.

### ZT2318H(D)

1/4" Air Hydraulic Lock Bolt Tool (Digital type)  
ONE std. lock bolt nose included.

### ZT2318HK(D)

1/4" Air Hydraulic Lock Bolt Tool Kit (Digital type)  
FOUR std. lock bolt noses & 3/16", 1/4" blind rivet conversion kit included.

### ZT2318B(D)

1/4" Air Hydraulic BOM® Installation Tool (Digital type)

### ZT1528BT(D)

1/4" Air Hydraulic BOBTAIL® Installation Tool (Digital type)

### ZT1528NB(D)

1/4" Air Hydraulic NEOBOLT® Installation Tool (Digital type)

### Opt. Extended Nose Assembly

**DO NOT apply air pressure over 110 psi / 7.5 bar to these tools.**

### Split type tool - Product Code Creator

Fill in model number (Example: XXZT0518S)

length of hydraulic hose (1or3)

**3/8"(9.5mm) Split type Pneudraulic Installation tool**

### Features

- Light weight pistol handle easy to use and reach to inaccessible area.
- Designed to install a wide range of 3/8" blind fasteners also Pin & Collar Fasteners.
- Low operating hydraulic pressure design for more durable hydraulic sealing mechanism.
- Forged & heat treated aluminum alloy made hydraulic section for the best rigidity.
- Portable intensifier instead of high cost hydraulic power unit.
- Custom designs are welcome.
- 3M length hydraulic hose set is included.
- Nose sold separately.
- ZT4125S capable to set 3/8" C6L®, Magna-Grip®, Magna-Lok®, Avdelok®, Maxlok®, Monobolt® & Avtainer® fasteners.

MONOBOLT®, AVTAINER®, MAXLOK®, AVDELOK® ARE REGISTERED TRADEMARKS OF STANLEY ENGINEERED FASTENING.

## Clam Shell Composite Housing

### Features

- Designed with patented "Module units assembled in composite clam shell housing" for easy tool service.
- Ergonomic texture coated composite housing for operator's comfort.
- Less friction loss along the air passage to increase tool power & performance.
- Module unit mechanism enables more common parts to be used in similar designed tools.
- Rocker type trigger and both left or right hand side air inlet for ease of operational control.

## Speed Riveter

### Features

- Can be used in areas with restricted operator space.
- Available with in-line handle and top or bottom hose configuration - optimized ergonomic performance for improved productivity.
- Average cycle time of less than 2 seconds - increased productivity - up to 1500 fasteners per hour.
- High capacity, magazine fed fasteners - reduced component handling and subsequent spillage.
- Lightweight construction and zero action recoil - reduced operator fatigue.
- Long life, self-priming intensifier - consistent actuation and hence joint formation.
- Long reach barrel - can be used in many difficult access applications.
- Low maintenance hand tool - productive time is maximized - no requirement for specialist maintenance training.
- Robust & durable construction - suitable for most industrial environments.
- Parts interchangeable with Avdel® 07530-02100.

## Speed Riveter - Front Jaws

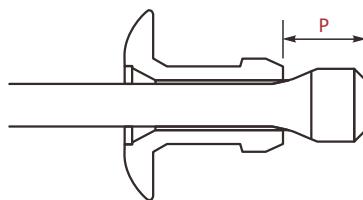

### Features

- Our speed rivet has a Bulbed tail. And it is foreshortened and expanded radially during installation.
- Because this bulbed tail will give you high vibration and good hole fill.
- We supply the speed rivet with many different material and finishes.
- So you will have various options according to your needs.
- Speed rivets are podded in a paper pod. So you can install 20 to 70 rivets with one easy loading.

4.8mm(3/16inch) Aluminum, Steel, Brass	4.89(As recommended)	ZCM-0335	3.35	9.90	ZS-6001
	4.89+0.13	ZCM-0371	3.71	9.30	
	4.89+0.25	ZCM-0396	3.96	9.30	

Depend on the hole size and material of application, you can select suitable mandrel for your application.

For the curved front jaws, the mandrels have to be bent by hand to match the curvature of the front jaws.

Mandrels for stainless steel speed rivet, they have a "V" cut on the end of the mandrel heads.

# Compression Rivet Squeezer

## "C" Yoke Riveters

### Features

- Specially designed for airplane construction to ensure fast, economical riveting where two-man operation is impractical.
- Features strong, steady, silent squeeze action, which is easily controlled for a large variety of rivets.
- Ideal for dimpling, punching, stamping and pressing. Widely used for truck, bus and automotive applications.
- Extra powerful, portable tandem cylinder also available with double the compressive force for larger riveting capacity.

# Compression Rivet Squeezer

## "Alligator" Yoke Riveters

### Features

- For squeezing a large variety of size and type of rivets.
- Strong squeeze action is easily controlled to provide uniformity and accuracy of work.
- Ideally used for dimpling, punching and pressing.
- Extra powerful, portable tandem cylinder also available with double the compressive force for large riveting capacity.

## Pneudraulic C -Yoke & Alligator Squeezers

### Features

- High quality industrial grade compression rivet squeezers, for the installation of solid rivets.
- Compact size and lighter in weight compare to current pneumatic squeezers on the market.
- **CONSTANT FORCE** over the entire stroke range.
- Built from high quality aircraft grade materials and features held to close tolerances, for years of dependable operation.
- The reduction in weight and constant force decreases operator fatigue, and improves the quality of every riveting work.

### Commercial users of these Squeezers include:

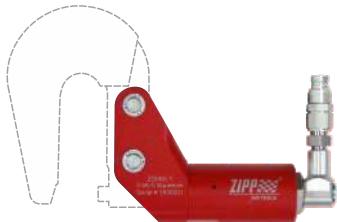

AIRBUS  
ALCOA  
BARNES AEROSPACE  
BEECHCRAFT  
BOEING AIRCRAFT  
CANADA NATIONAL DEFENCE  
DELTA AIRLINES  
GE AIRCRAFT ENGINES  
HONDA AIRCRAFT  
KOREAN AEROSPACE  
LODE KING INDUSTRIES

MUSCO SPORTS LIGHTING  
NORTHROP GRUMMAN  
ORENDA AEROSPACE  
ROLLS ROYCE - UK  
ROLLS ROYCE - US  
SCHILLING ROBOTICS  
SPIRIT AEROSYSTEMS  
UTC AEROSPACE SYSTEMS  
U.S. ARMY  
U.S AIR FORCE

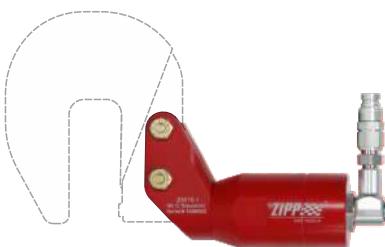

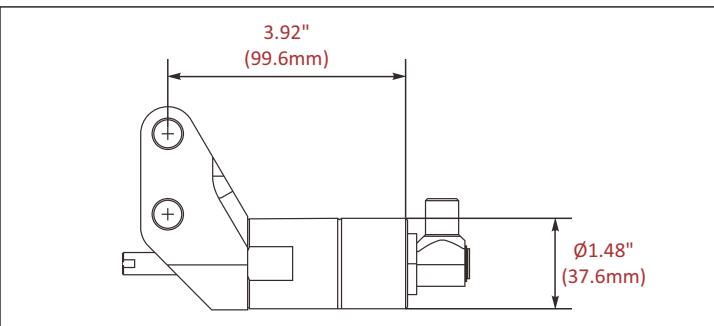

Evergreen Aviation Precision Corp. (EGAP)

Quick Couplers & Foot or Finger control module.

**C** = Intensifier on Transport Cart

## Features

- The ZIPP Pneudraulic Intensifier is designed to operate devices requiring a small volumetric output of high pressure fluid. The unit is a "one shot" intensifier, meaning it will fully displace the hydraulic fluid with one stroke of the air piston in the cylinder. These types of intensifiers tend to be faster than pumping type air operated intensifiers of similar size. These models also allows for "feathering" of the riveter (subtle positioning of the squeezer rivet set), when controlled by a foot or finger operated valve.
- Optional electrical module. upgrade are available upon request.
- Portable intensifier instead of high cost hydraulic power unit.
- Low operating hydraulic pressure design for more durable hydraulic sealing mechanism.
- Custom design are welcome.
- Before using these Intensifier, please fully read and understand the operation manual.

## Shock Reduced Air Hammer

### Features

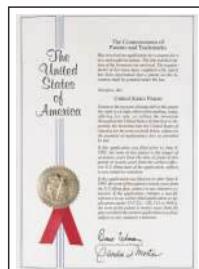

- Designed with following patents for assuring the best shock reduction and operator's comfort.
  - 1) Portable pneumatic tool **assembled with module units**.
  - 2) **Suspension vibration-reducing** means for portable pneumatic tools.
- Alloy steel made impact parts, heat-treated for durability.
- Quick Change Retainer for simple accessory changes.
- **Ergonomic handle with rubber** made exhaust muffler for added operator's comfort.
- Optional patented universal swivel air inlet joint for the best maneuverability of the tool.

## Shock Reduced Riveting Hammer / Bucking Bar

### Features

- The new ZRH riveting hammer is designed to minimize the vibration while maintaining high tool performance. Vibration is reduced by an effective air cushion behind the hammer piston.
- Parts are interchangeable with RRH series.
- Streamline profile & adjustable power.
- Equipped with universal swivel air inlet joint for the best maneuverability.

● Air Inlet Size: 1/4" NPT/PT

● Air Hose (I.D.): 9.5(10)inch(mm)

### Features

- An efficient riveting system consists of shock reduced bucking bar with shock reduced riveting hammers.
- Self-adjustable - SP models use a spring as shock reducing element and consequently do not require the air supply.
- Flexible - The bucking bars can fitted with serval different interchangeable dolly configurations via a quick change retainer for maximum flexibility.

# Shock Reduced Air Riveting Hammer

## Features

- Designed with following patents for assuring the best shock reduction and operator's comfort.
  - 1) Portable pneumatic tool **assembled with module units**.
  - 2) **Suspension vibration-reducing** means for portable pneumatic tools.
- Alloy steel made impact parts, heat-treated for durability.
- Spool valve allows slow heavy blows needed to drive rivets.
- **Ergonomic handle with rubber** made exhaust muffler for added operator's comfort.
- Optional patented universal swivel air inlet joint for the best maneuverability of the tool.

## Rivet Chisels / Retainers

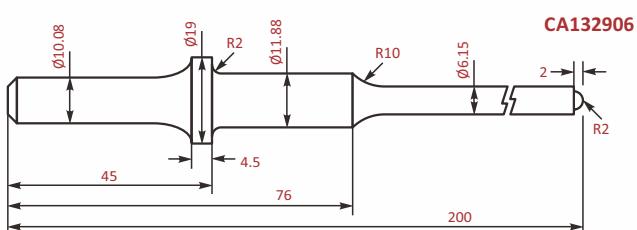

**For ZRH-132P, ZRH-132PAP, ZRH-132S  
ZRH-133P, ZRH-133PAP, ZRH-133S  
ZRH-134P, ZRH-134PAP, ZRH-134S  
ZRH-132N, ZRH-133N, ZRH-134N**

- Chisel Shank: 10.2mm(0.401")
- Hardness: 48~51°
- Material SCM440 Alloy

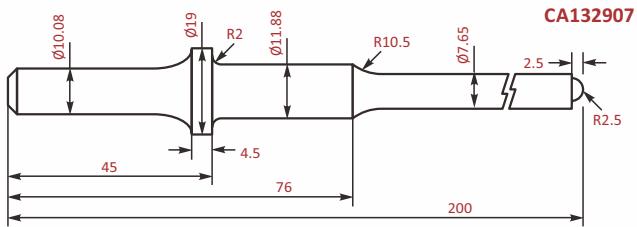

**For ZRH-195P, ZRH-197P, ZRH-199P**

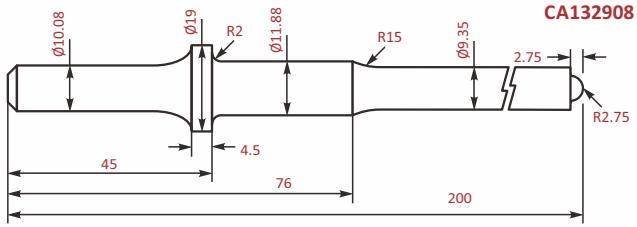

- Chisel Shank: 12.6mm(0.498")
- Hardness: 48~51°
- Material SCM440 Alloy

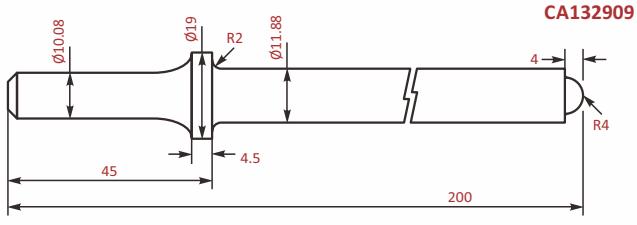

**CA132906**

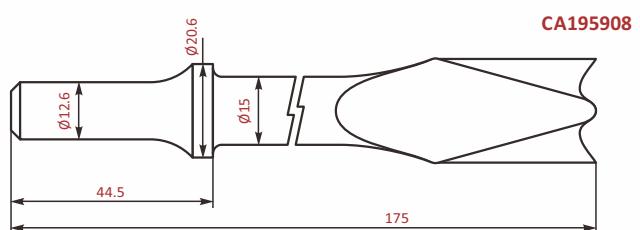

**CA132907**

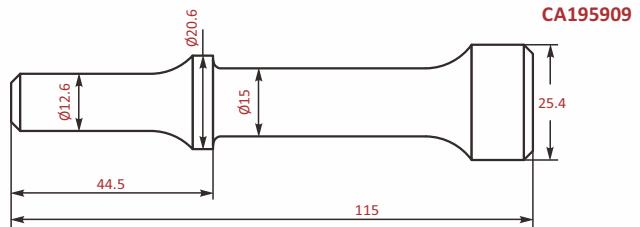

**CA132908**

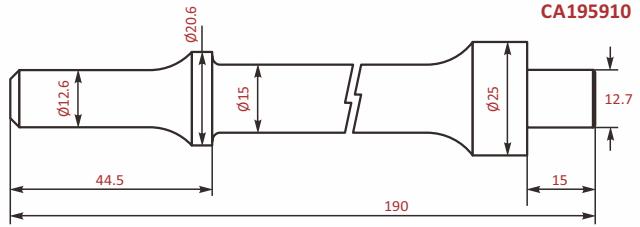

**CA132909**

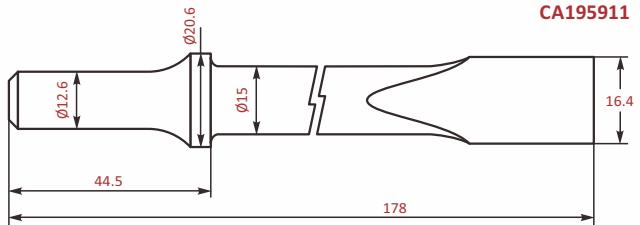

**CA195908**

**CA195909**

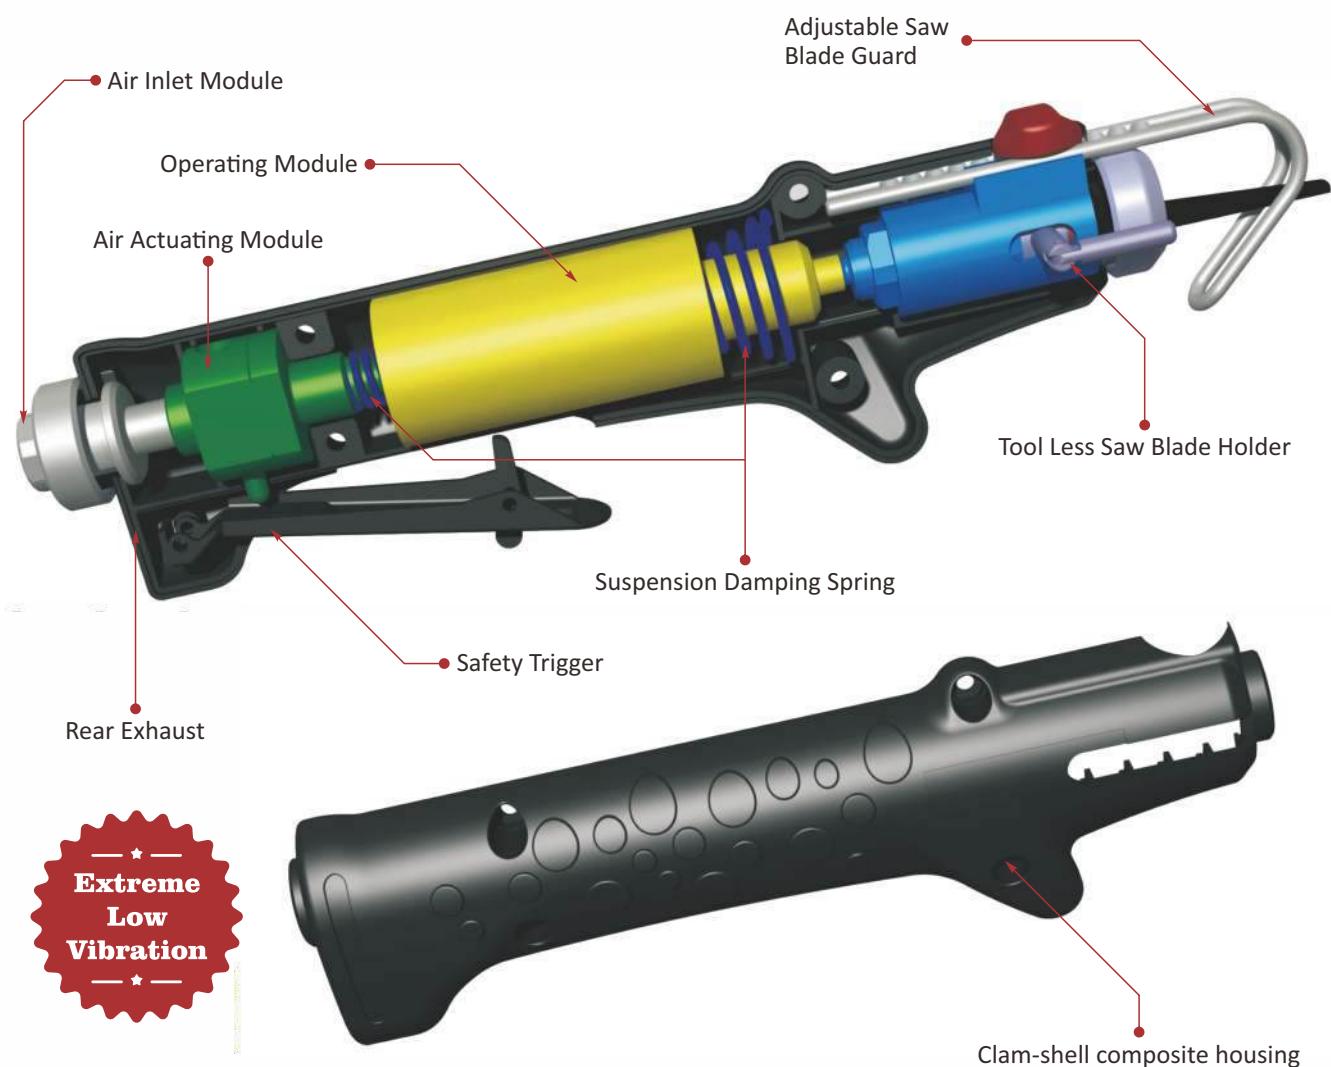

**CA195910**

**CA195911**

## Features

- Designed with following patents to assure extreme low vibration and operator's comfort.
  - Portable pneumatic tool assembled with module units in clam shell composite housing.
  - Suspension vibration-reducing means for portable pneumatic tools.
- Engineering plastic made clam-shell housing designed for easy service.
- Patented universal swivel air inlet joint for the best maneuverability of the tool.
- Safety trigger to prevent accidental start ups and provide operator's comfort.
- Rear exhaust directs air away from work-piece.

### Vibration Reduced Pneumatic Roofing Cutter

- Designed to assure extreme low vibration for operator's comfort.
- Portable pneumatic tool assembled with module units in clam shell composite housing.
- Engineering plastic made clam-shell housing designed for easy service.
- Universal swivel air inlet joint for the best maneuverability of the tool.
- Blades offer efficient and fast cutting in cold weather to reduce down time.
- These blades cut through a variety of material including shingles, roofing paper, and asphalt roll roofing, etc.
- Blades offer seamless cutting of straight edges provides more efficient to the applications.
- Can be used on ANY ZIPP vibration reduced air saws for the best performance.

## Applications

The most powerful Industrial Air Saw for clean, burr-free cuts with standard hacksaw blades in serving a wide range of industries and emergency services where reliability and durability are really matter such as Petrochemicals, Oil Rigs, Power Stations, Public Transport Facilities, Coal Mines, Fire Brigades, Airways & Airport Facilities, Railway, Garages, Car Manufacturers, Commercial Vehicle Builders, Boat Building, Reinforced Fiberglass, Shipyard use, Ministry of Defense-Army, Navy, Air Force, etc.

## Capacity Features

- Excellent sawing work of various materials, trims or shapes sheet metal, plastics, plates, fiberglass, plywood, or cut pipe, rod, bar in any place.
- Available anywhere in ship, in oil tank, in mining tunnel, in construction site, in plant, in water, for rescue work, in car accident, etc.
- Most versatile maintenance tool-used throughout industry.
- Clean and burr-free cuts with standard hacksaw blades.
- Adaptable for cutting a variety of materials with proper saw blades.
- Ideal for sustained usage and suitable for the most awkward places.
- Used throughout fiberglass boat building and car body repair shop industries.
- Powerful enough to easily and quickly cut through steel-flexible enough to enough to efficiently and accurately cut in even the most awkward place.

## Construction Features

- Designed with a patented vibration reduced mechanism to ensure the lowest vibration and most operator comfort.
- Few moving parts means breakdowns are virtually eliminated-ensuring total reliability and long trouble-free service.
- Safety Switch-essential for when changing blades.
- Quiet in operation-enables you to use it anywhere.
- Electro-chemical treated bores giving long-wearing quality.
- Slim, compact and lightweight design for easy portability.
- Blade and work piece cooled by exhausted air and oil.
- Special alloy steel made Nosepiece ensures the highest level of durability.
- Automatic and visible lubrication.
- Extremely low air consumption. Operates on normal compressed air supply.
- Safe to use in non-flame areas.
- 45MM stroke length and ability to accept short pieces of blades making it ideal for cutting in confined spaces and "Double skin" panels.

Cutting Capacity			
Pipe Material	Steel	Steel	Steel
Wall Thickness	2.4mm	3.5mm	5mm
Pipe O.D.	22mm	34mm	80mm
Saw Blade	14T.P.I Bacho Blades		
Cut Off Time(sec.)	9	21	470
Test under same condition as:			
1) 90psi air pressure. 2) 5kg standard load weight on the tool while testing.			

Accessories	
	<ul style="list-style-type: none"> <li>● Patented Universal Swivel Joint X 1</li> <li>● Carrying Box X 1</li> <li>● Oiler Pot X 1</li> <li>● Each of 300mm 14TPI &amp; 8/12TPI Bi-Metal BAHCO Saw Blades (1/2" W x 12" L x 0.025" T ) X 1</li> <li>● 3mm Hex Wrench X 1</li> <li>● Hand Grip X 1</li> </ul>

Model	Blow Per Minute bpm	Stroke Length mm	Avg. Air Cons. cfm(l/min)	Noise Level db(A)	Vibration m/s <sup>2</sup>	Net Weight lbs(kgs)	Min. Hose Size inch(mm)	Air Inlet Size inch-NPT/PT

- Operating Air Pressure: 90psi/6.2bar

## Features

- High frequency with 1mm, 5mm & 10mm strokes for various kind of surface finishing works such as precise and delicate lapping of die & mold surface, finishing in confined area and general filing works.
- Designed with following patents to ensure extreme low vibration and operator's comfort.
  - Portable Pneumatic Tool assembled with module units.
  - Suspension Vibration-Reducing means for portable pneumatic tools.
- Throttle type flexible hose equipped for the best maneuverability of the tool.
- Adjustable side exhaust directs air away from operators.
- Rubber sleeve designed for operator's comfort.

# Vibration Reduced Air Lapper / Air File

## Features

- Ideal for precise and delicate filing castings, also perfect for lapping die and mold surface.
- High frequency with 0.5~1mm stroke for ZF-1, ZF-1T, ZF-1M, ZF-1MT
- High frequency with 3~5mm stroke for ZF-5, ZF-5T, ZF-5M, ZF-5MT
- High frequency with 7~10mm stroke for ZF-10, ZF-10T, ZF-10M, ZF-10MT

**Air Metal Shear / Air Scissors**

**ZP226**  
Air Metal Shear

- The ZP226 Air Shear is ideal for the trimming, outlining and shearing of various sheet.
- The heavy-duty cutting blades make clean cut in cold rolled steel up to 18-gauge.
- The shear is ideal for body shop, sheet metal shop, and machine shop.

**ZP227**  
Air Scissors

- The ZP227 Air Scissors is ideal for contour snip.
- The heavy duty blades make quick and clean snip.
- The scissors is ideal for body shop and machine shop.

**ZP228**  
Pistol-Grip Air Shear

- Lightweight and durable composite pistol-grip for great control.

**ZP229**  
Pistol-Grip Air Scissors

- Lightweight and durable composite pistol-grip for great control.

## Industrial Air Drills - Composite Housing

- The tools feature an innovative and ergonomic composite housing and textured rubber grip that insulates against cold temperature and vibration and provides great comfort and controllability.
- The ZRD324 Air Drill features one-piece gear box structure that runs smoother and lasts longer.

### Gear box options

- One-piece gearbox for heavy duty application.
- Combination gearbox for general application.

## Angle Drill / Air Drill / Air Eraser / Tire Buffers

**ZAD-3004P** 1.0HP  
3/8" Air Drill

**ZAD-3004PC** 1.0HP  
3/8" Air Drill

**ZAD-336** 0.5HP  
3/8" 90° Angle Air Drill

- The Angle Air Drill is ideal for drilling applications of restricted areas.
- The powerful air motor provides high power output and stall torque resistance.

**ZAD-356 / ZAD-376** 0.5HP  
3/8" Air Drill

**Z26036-2**  
Rubber Eraser  
3-8/15" x 7/12"

**Z26036-7**  
Rubber Eraser  
4" x 7/12"

Rubber Eraser  
3-8/15" x 7/12"

**ZAE-371 / ZAE-3714** 0.5HP  
Air Eraser

- Smart Eraser is designed for every user to get rid of any kind of marks on the plastic plate or painted surface.
- The user can do the removal very fast and clear without any damages on the surface.
- The original painting will as like the original.

**ZBT265A6026TB**  
Tire Buffer Metal Wheel

**ZTB-383** 0.5HP  
Air Tire Buffer

- The Tire Buffer is ideal for general purpose tire buffering.
- Featuring high power and stall torque resistance makes the tire buffering easy and efficient.

**ZAD-356P / ZAD-376P** 0.5HP  
3/8" Air Drill

- In-Line Drill is designed for low speed/high torque applications, such as drilling, sanding, and polishing.
- Keyless chuck comes with both ZAD-356 and ZAD-376.

**ZP384 / ZP3843** 0.5HP  
Air Tire Buffer

- The Tire Buffer is ideal for general purpose tire buffering.
- Featuring high power and stall torque resistance makes the tire buffering easy and efficient.

## Air Angle Eraser

### Benefits

- Superior Ergonomics.
- Easy to use & offer greater visibility on work surface.
- Safety & Convenience.
- Powerful at 1.0 hp.
- Durable.
- Specially tool developed for the removal of pinstripes, Car Decals and Stickers, double faced tapes.

### Features

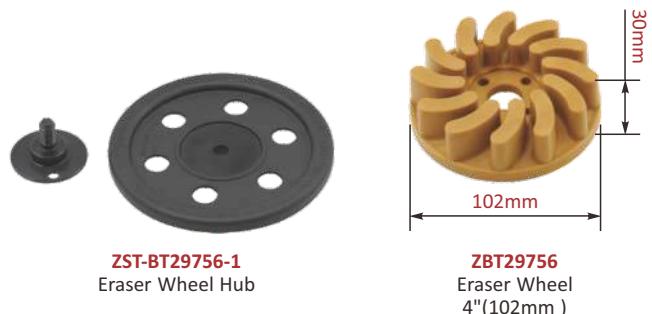

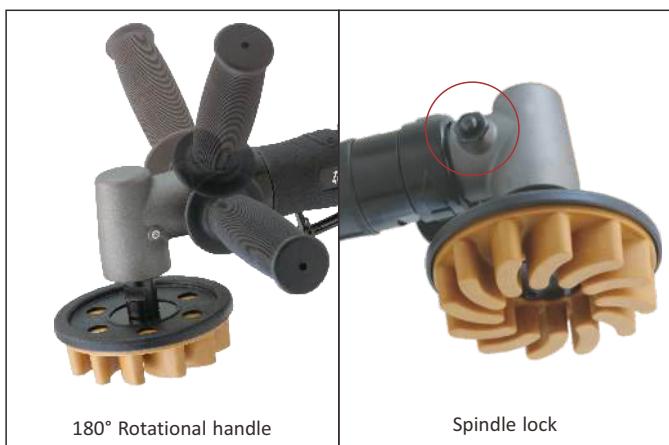

- High quality alloy steel's bevel gear with precision teeth design for tool performance durable & longevity.
- Spindle lock button feature allows for faster eraser wheel
- changeovers.
- Fully adjustable side handle.
- 4" Eraser Wheel with eraser wheel hub for secured fastened on spindle & more stable operation.
- Eraser wheel's pad as spiral oriented design as running direction for smoothly removal operation.
- 5/16"-24 spindle female thread.
- 1.0hp motor & 2400 rpm free speed.

## Air Die Grinder / Air Angle Die Grinder

- Ergonomic cushion-grip handle-Insulates against cold temperature in the hand, helps ease user fatigue, and insulates against vibration.
- Power/Speed Regulator-Allows for easy rpm adjustment.
- Rear exhaust-Directs the exhaust away from the user and the working areas.
- Twin-Bearing Spindle-This quality design results in super precise spindle concentricity less than 0.05mm and minimal vibration.

**ZDG-2319** 0.3HP

Medium Speed Mini Air Die Grinder

- Low profile for grinding restricted areas.
- Light weight for fatigue free use.
- Medium speed for specific grinding accessories.

**ZDG-231AL** 0.3HP

3" Extension Mini Air Die Grinder

**ZDG-231L** 0.3HP

5" Extension Mini Air Die Grinder

**ZDG-231** 0.3HP

Mini Air Die Grinder

- The ZDG-231 Mini Die Grinder is suitable for light weld grinding, porting and polishing applications. It features a spindle concentricity less than 0.05mm.

**ZDG-231K Mini Die Grinder Tool Kit**

	<b>Specifications:</b> <ul style="list-style-type: none"> <li>● 1 pc Die Grinder</li> <li>● 2 pcs Spanners</li> <li>● 5 pcs 1/4" Shank Grinding Stones</li> <li>● 5 pcs 1/8" Shank Grinding Stones</li> <li>● 1 pc 1/8" Collet</li> <li>● 1 pc Nipple</li> <li>● 1 pc Blow Case</li> </ul>
--	--

**ZDG-236** 0.3HP

Mini Air Angle Die Grinder

- The ZDG-236 Mini Angle Die Grinder allows easy handling in confined areas, and is capable of using carbide burrs and other attachments for polishing, porting, and light metal removal.

## Air Die Grinder / Air Angle Die Grinder

**ZP313** 0.5HP

### Low Noise Air Die Grinder

- The ZP313 Die Grinder is suitable for many automotive and industrial high speed grinding applications.
- The grinder can be used to clean dies, rotors, backing plates and brake pad mounts.
- Grind valve seats, dress welds and enlarge holes.
- Can use with 1/4"(6mm) or 1/8"(3mm) grinding.

**ZP314** 0.5HP

### Low Noise 3" Air Extension Die Grinder

**ZP319** 0.5HP

### Low Noise Air Angle Die Grinder

- The ZP319 Angle Die Grinders are ideal for high speed grinding and polishing.
- It can be used in finishing dies and metal molds, smoothing and shaping sheet metal and cast iron, weld finishing and other high speed polishing applications.
- Can use with 1/4"(6mm) or 1/8"(3mm) grinding accessories.

**ZP313K Low Noise Air Die Grinder Kit**

#### Specifications:

- 1 pc Die Grinder
- 2 pcs Spanners
- 5 pcs 1/4" Shank Grinding Stones
- 5 pcs 1/8" Shank Grinding Stones
- 1 pc 1/8" Collet
- 1 pc Nipple
- 1 pc Blow Case

- In-Line Die Grinder is designed for low speed application.
- Can use with 1/4"(6mm) or 1/8"(3mm) grinding accessories.

**ZDG-356A / ZDG-376A** 0.5HP

### Low Speed, Low Noise Air Die Grinder

**ZDG-376AL** 0.5HP

### Low Speed Air Extension Die Grinder

- The die grinder come with 1/4"(6mm) or 3/8"(8mm) double angle collets for industrial application.

**ZP315** 0.5HP

### Low Noise 5" Air Extension Die Grinder

- Extension Die Grinder is designed for high speed grinding and polishing in hard-to-reach areas.
- Features an extended reach of 3".
- By using 1/4"(6mm) or 1/8"(3mm) grinding accessories, the grinder can be used in a wide range of grinding and polishing applications.

**ZDG-3226** 0.5HP

### Low Noise 115° Air Angle Die Grinder

- The ZDG-3226 Angle Die Grinders are ideal for high speed grinding and polishing.
- It can be used in finishing dies and metal molds, smoothing and shaping sheet metal and cast iron, weld finishing and other high speed polishing applications.
- Can use with 1/4"(6mm) or 1/8"(3mm) grinding accessories.

**ZAG-341** 0.5HP

### Low Noise 2" Air Angle Grinder

- The Angle Grinder features versatile application for grinding, including depressed disc.

**ZST-200E-29-1**  
1/4" COLLET

**ZDG-301** 0.9HP  
Air Die Grinder

- The ZDG-301 Die Grinder is suitable for many automotive and industrial high speed grinding applications. The grinder can be used to clean dies, rotors, backing plates and brake pad mounts.
- Grind valve seats, dress welds and enlarge holes.
- Can use with 1/4"(6mm) or 1/8"(3mm) grinding accessories.

**ZDG-302** 0.9HP  
Air Angle Die Grinder

- The ZDG-302 Angle Die Grinder is ideal for high speed grinding and polishing.
- It can be used in finishing dies and metal molds, smoothing and cast iron, weld finishing and other high speed polishing application.
- Can use with 1/4"(6mm) or 1/8"(3mm) grinding accessories.

**ZDG-301AL** 1.0HP  
3.5" Air Extension Die Grinder

- Extension Die Grinder is designed for high speed grinding and polishing in hard-to-reach areas.
- Features an extended reach of 3.5".
- By using 1/4"(6mm) or 1/8"(3mm) grinding accessories, the grinder can be used in a wide range of grinding and polishing applications.

**ZDG-301L** 1.0HP  
5.5" Air Extension Die Grinder

- Extension Die Grinder is designed for high speed grinding and polishing in hard-to-reach areas.
- Features an extended reach of 5.5".
- By using 1/4"(6mm) or 1/8"(3mm) grinding accessories, the grinder can be used in a wide range of grinding and polishing applications.

**ZST-200E-29-1**  
1/4" COLLET

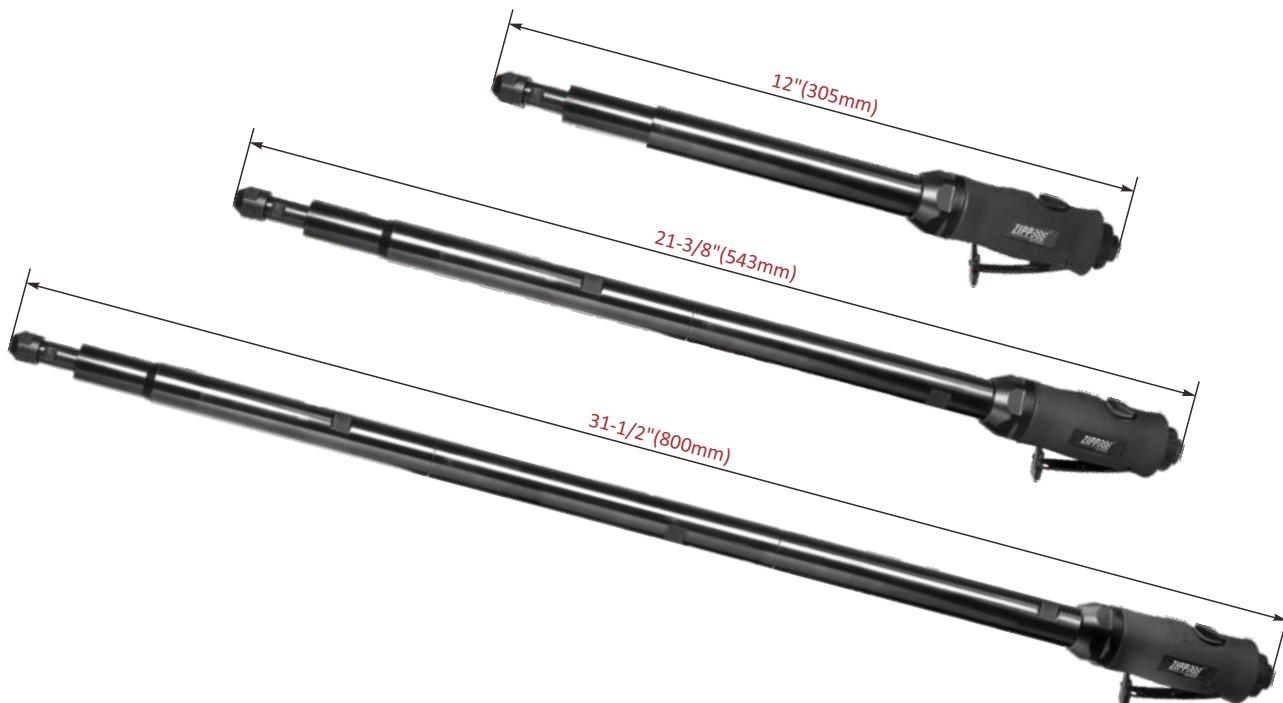

**ZST-200E-29-2**  
8mm COLLET  
**ZST-200E-29-4**  
3/8" COLLET

### Benefits

- Industrial extended shaft long die grinder design for high speed grinding & polishing in hard-to-reach areas
- By using 1/4"(6mm) or 3/8"(8mm) Double Angle Collets, the die grinder can be used in a wide range of grinding and polishing applications with various wheels
- 4000rpm models are excellent for grinding applications with flap sanding wheel
- High productivity
- Highest durability in demanding applications

### Features

- 12" (305 mm), 21-3/8" (543 mm), 31-1/2" (800 mm) extended body by Aluminum alloy structure.
- Comfort grip over-housing
- Streamlined safety lever
- Rear exhaust
- 1/4" (6mm) & 3/8" (8mm) industrial grade Double Angle collet holder
- 1.0 hp motor
- 22000 rpm free speed models and 3500 rpm free speed models

\* The length of extended body can be customize to extended as requirement.

## Angle Cutter / Air Nibbler

**ZP219** 0.5HP  
Air Nibbler

### Benefits

- Easy to operate and control
- Perfect for accurate cutting and best for tight corners and circles
- Used for nibbling plastic, tin, aluminum and others metals original
- Ideal for paint and auto body shops, tinsmiths, and sheet metal shops

### Features

- 4.5mm diameter punch cuts rolled steel sheet up to 0.0478"/1.2mm (18 gauge) and aluminum up to 0.064"/1.628mm (14 gauge).
- The nibbler is capable of cutting 4.5mm in radius with accuracy and without distorted edges.
- Easy access to punch and die for quick replacement.
- Balanced, lightweight tool.

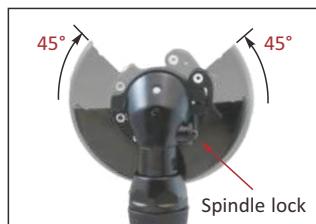

**ZBT25134-3GD**  
3" Disc Wheel  
(3" x 3/8 x 1/16")

**ZP250** 0.5HP  
Low Noise Air Cutter

### ZAG-306BM

**1.0HP** Spindle Thread M14x2P

4" Air Angle Grinder & Cutter

### ZAG-30656B

**1.0HP** Spindle Thread 5/8"-11

### ZAG-30656BM

**1.0HP** Spindle Thread M14x2P

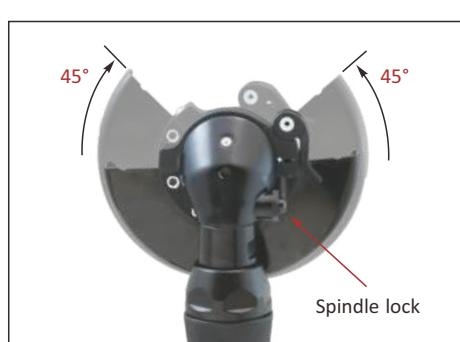

4-1/2" Air Angle Grinder & Cutter

#### Benefits

- Compact head design.
- Superior Ergonomics.
- Easy to Use.
- Safety & Convenience.
- Powerful at 1.0 hp.
- Durable.
- Ideal for a variety of applications such as sanding with flap discs, grinding especially in tight spaces.

#### Features

- High quality alloy steel's bevel gear with precision teeth design for tool performance durable & longevity.
- Spindle lock button feature allows for faster grinding wheel changeovers.
- 9 position adjustable swivel guard-120° adjustable for better operator protection & greater visibility of cutting operations.
- 4" (100mm) & 4.5" (115 mm) wheel capacity.
- 5/8"-11 & M14 x 2P spindle thread.
- 1.0hp motor & 11000 rpm free speed.

Model	Grinding Wheel	Free Speed rpm	Avg. Air Cons. cfm	Length inch(mm)	Net Weight lbs(kgs)	Min. Hose Size inch(mm)	Air Inlet Size inch-NPT/PT

## Extended Air Cutter

**ZAC-30540** 1.0HP  
4" Extended Air Cutter

**ZAC-305640** 1.0HP  
4-1/2" Extended Air Cutter

### Benefits

- Extended Length & Compact Gear Housing at height 39mm
- Ergonomic Grip
- Easy to Use
- Safety & Convenient
- Powerful at 1.0hp
- Durable
- Ideal for cutting composite, metal, exhaust pipes, hangers, body panels, hoses, and U-bolts, ... especially in tight spaces

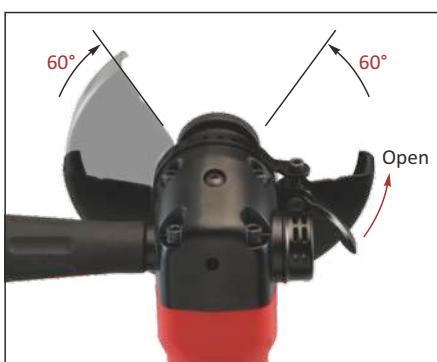

### Features

- Cutting disc size: 4"/100mm, 4-1/2"/115 mm
- 7" = 180mm for better reach and easy access to restricted areas
- Composite ergonomic grip to reduce cold air transmission to operators
- Spindle lock system for easier wheel changing
- 9 position adjustable swivel guard - 120° adjustable for better operator protection & greater visibility of cutting operations
- Built-in speed regulator for easy adjustment
- Safety throttle lever to prevent accidental start up
- Rear exhaust with low noise
- 1 HP motor & 14000 rpm
- High quality bearing (larger bearing size) for better support internal gears
- High quality alloy steel for spiral bevels gears with precision teeth design for tool longevity

## Laser welding removal Tool

### Benefits

- Compact angle head housing design for quick and easy use.
- Ergonomic Grip
- 0.5hp Powerful & Durable
- Ideal tool & specifically designed to deal with the latest technique in vehicle assembly laser welding

### Features

- High speed cutting wheel made of a specially hardened metal. Depth of cut limitation-optional at either 0.8-1.0mm. The depth limiter ensures that the lower panel doesn't get damaged.
- Protection guard (transparent acetate material ) design for safety protection.
- High quality manufacturing and materials guarantee durability.
- High quality alloy steel for internal gears with precision gear teeth design for prolong the gear life.

## Spot Repair Sander

### Benefits

- Mini compact design with angle head Housing at height 75 mm
- Ergonomic Grip
- Easy to use & convenient
- 0.3hp Powerful & Durable
- Ideal for use in paint shop applications for sanding nibs or for sanding small areas and for car headlights polish.
- Dual action for provide uniform sanding surface with a superior finish , ready for buffering application as next steps.

### Features

- Angle head dual action sander with 2" Velcro Pad, 1.2" Velcro Pad , Triangle mini Velcro Pad
- High quality bearing provide long tool life
- High quality alloy steel for spiral bevels gears with precision teeth design for tool longevity
- One piece balancer design for reducing vibration of dual action

## Air Sander / Polisher

**ZOS-343** 0.5HP  
3" Orbital Sander

- Ideal for headlamp, windshield and small area repair and finishing.
- 2.5mm orbital diameter.

**ZP388** 0.25HP 3" Mini Polisher - 1/4"-20 or M6x1.0

**ZP389** 0.25HP 3" Mini Polisher - 5/16"-24

- Composite Motor Housing
- Handle Exhaust
- Low Noise 80 dB(A)

**ZVP-7N-7747** 0.6HP  
5" Vertical Sander / Polisher

- Composite Motor Housing
- with Air Regulator

**6N-663636-11**  
5" White  
Compounding Pad  
-Velcro  
#80 Grip

**6N-663637-11**  
5" Yellow  
Compounding Pad  
-Velcro  
#70 Grip

**6N-663638-11**  
5" Wool  
Polishing Pad  
- Velcro

**ZNRS-71-6346** 0.3HP

Nib Removal Sander - Orbit Dia. 3 mm

- Small Diameter Head Size for Better Visibility, Less Buffing
- Lightweight, Easy-Grip, Right Angle Tool
- Better Visibility, Less Buffing
- Precise Speed Control
- Rear Exhaust with Available Overhose

ZP388K 3" Mini Polisher - 1/4"-20 or M6x1.0	
ZP389K 3" Mini Polisher - 5/16"-24	
	
Kit include:	
<ul style="list-style-type: none"> <li>• 1 pc 3" Mini Polisher</li> <li>• 1 pc Key Wrench</li> <li>• 1 pc 3" Velcro Sanding Pad (Installed)</li> <li>• 1 pc 3-1/2" Bonnet</li> <li>• 1 pc 3-1/2" Yellow Compounding Pad</li> <li>• 1 pc 3-1/2" White Compounding Pad</li> </ul>	

**ZASL-342A** 0.5HP  
Low Noise 2" Angle Sander

- Includes locking-type pad(2" diameter or 3" diameter).
- The Angle Sander is ideal for all types of sanding on small areas.

## Angle Sander / Angle Polisher

### ZAP-882 1.3HP

#### 7" Angle Polisher

##### Benefits

- Powerful motor for productivity
- Maximize operator comfort
- Lightweight with side handle for easy handing
- Excellent for buffing and polishing flat and contoured surfaces

##### Features

- Heavy-duty angle polisher
- 1.0 hp precision motor
- Built-in air regulator
- High quality alloy steel bevel gears with well hardened and ground
- Delivered with optional 7" Pad

### ZAS-883 1.3HP

#### 7" Angle Sander

##### Benefits

- Powerful motor for productivity
- Low vibrations and durability
- Lightweight with side handle for easy handing
- Perfect for weld smoothing, paint, rust and stone removal

##### Features

- Heavy-duty angle sander
- 1.0 hp precision motor
- Built-in air regulator
- High quality alloy steel bevel gears with well hardened and ground
- Delivered with optional 7" Pad
- Muffled rear exhaust

## Central Vacuum 2-Hand Random Orbital Sanders

**ZTHS-C5 / ZTHS-C6** 0.5HP

Central Vacuum 2-Hand Random Orbital Sanders

### Benefits

- Powerful and lightweight.
- Lube Free Design eliminates contamination of the work environment.
- 3-in-1 hose design same as FESTOOL IAS 2 Connection. supplies air, extracts dust, and provides an exhaust all through one hose.

### Features

- Ergonomic housing design.
- Hardened Steel Alloy Cylinder for more durable & longevity.
- Innovative Anti-Dust Protection system.
- Lube Free Design eliminates contamination of the work environment

**ZTHG-C5 / ZTHG-C6** 0.5HP

Central Vacuum 2-Hand Gear-Driven Sanders

### Benefits

- Powerful and lightweight.
- 900 rpm motor produces excellent low speed torque.
- Unique epicycloidal pad motion generates torque-enhanced power, for consistent material removal.
- Lube Free Design eliminates contamination of the work environment.
- 3-in-1 hose design same as FESTOOL IAS 2 Connection. supplies air, extracts dust, and provides an exhaust all through one hose.

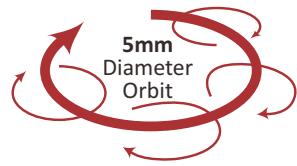

### Features

- Long handle design for easy two-handed control.
- High quality alloy steel gear driven gear with precision teeth design for durable tool life.
- Speed control lever is conveniently located for easy thumb adjustment.
- 3-in-1 hose design same as FESTOOL IAS 2 Connection.

Model	Pad Size inch(mm)	Dia. Orbit inch(mm)	Free Speed rpm	Avg. Air Cons. cfm	Net Weight lbs(kgs)	Min. Hose Size inch(mm)	Air Inlet Size inch-NPT/PT

## 2-Hand Gear-Driven Sanders

- The strength and power of this sander lets you remove heavy material and body filler on large, flat surfaces leaving a swirl-free finish.
- A long life, vibration-free performance

Epicycloidal pattern of Gear-Driven Orbital Sander!

## Air Sander Accessories

### Feature & Benefit

- Premium P-graded, heat-treated aluminum oxide abrasive for superior life, fast cut rate, and consistent finish.
- Unique fiber-reinforced, B-wt latex-saturated backing provides a 50-60% improvement in tear strength.
- Flexible; can be used wet.
- Water-based stearate, non-pigmented, No-Fil coating provides maximum load resistance and extended life with no color transfer to work.
- Typical applications include preparing primed and painted surfaces for finishing, stripping primer and paint, sanding plastic and fiberglass, and bare wood sanding.

### Features & Benefits

- High torque 2.5HP ( 1.9kW ) motor output.
- Governed motor & Safety lever for operator safety.
- Spindle lock design for easy disc change.
- Vibration damped & Balanced side handle.

**ZAG636** 2.5HP

5" Angle Grinder

\*Grinding Wheel not included

**ZAG6368** 2.5HP

7" Angle Grinder

\*Grinding Wheel not included

### Features & Benefits

- High efficient turbine motor for effective grinding & material removal.
- Autobalancer to minimize vibration for operator comfort.
- Adjustable guard.
- Governed motor & Safety lever for operator safety.
- Integrated Autobalancer & Overspeed shut-off device.

**ZTG638** 6.1HP

7" Turbine Angle Grinder

\*Grinding Wheel not included

**ZTG630** 6.1HP

## Air Needle / Chisel Scalers

High power, quality design

### Features & Benefits

- Texturing concrete
- Cleaning & stress relieving weld seams and joints
- Removing coatings, corrosion & other accumulated materials
- Chisel scalers for splitting, chipping, pointing and brick raking
- Convert to chisels in seconds
- Dust shroud attachments available
- Adjustable front tube extends needle life
- Heat treated piston and cylinder ensure excellent durability and long life

## Air Needle Scalers

### Features & Benefits

- Needle scaler for industrial application
- Sturdy and simple design for heavy and wide applications
- Superior design with internal spring components provides greater durability

**ZNS1919**  
Air Needle Scalers

**ZNS1919C**  
Air Needle Scalers

**ZNS-4111**  
PENCIL NEEDLE SCALER  
w/ Inline air flow regulator

#### Application:

- Gentle cleaning of soiled/rusted parts
- Pin form and free needles allow you to reach difficult-to-access areas as well

**ZKJ27**  
Pistol Grip Needle Scaler

**ZKJ35-23 / ZKJ35-53**  
Pistol Grip Needle Scaler

**ZKJ39-14 / ZKJ39-28**  
**ZKJ39-66 / ZKJ39A** Vacuum Type  
Pistol Grip Needle Scaler

**ZKJ831**  
Pistol Grip Needle Scaler

**ZNS-1228**  
Air Needle Scalers

**ZKJ31-12 / ZKJ31-27**  
Composite Straight Needle Scaler

### Vacuum System

Needle scalers can be fitted with dust shroud

## Low Vibration Needle Scaler & Flux Chipper

### Features

- Medium duty with vibration reduced design
- 19 x 3mm needles
- Dust shroud attachment available
- Requires no additional tools for changing needles/chisels
- Removal coatings, corrosion and accumulated materials
- Slag removal and stress-relieving welds
- Cleaning concrete, mixers, formwork & machinery

## Heavy Duty Air Needle & Chisel Scalers

### Features & Benefits

- Needle scaler designed to tackle a wide range of surface preparation tasks in construction, marine and petrochemical.
- Heaviest in the range of scalers.
- Heavy duty semi pistol grip.
- Adjustable front tube for longer needle life.
- The heavy duty scaler for the toughest applications such as roughing and dressing concrete and aggregate exposure, also ideal for removing the hardest scale and corrosion.
- Heavy rust and scale removal from steel structures such as bridges, ships and offshore platforms.
- Stippling of plain concrete for keying and decorative finishes.

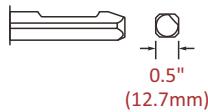

Focus on the front exhaust, effectively blocking dust, Welding slag.

The control rod installation of safety devices, to increase the user security.

## Hand Held Heavy Duty Air Scaling Hammers

### Features & Benefits

- Lightweight, easy to handle.
- Detachable taper fit cutter head reduces cost of replacement and extends piston life.
- Bush hammer tungsten carbide tipped pistons.
- Alternative cruciform tungsten carbide tipped pistons.
- Removal of rust, coatings, scale from steel structures and surface.
- Cleaning of cast iron, steel pipe and bell joints of gas lines maintained by utilities and gas companies.
- Removal of stubborn coatings and mastic residue from floor.
- Reduced Vibration improves operators control.

## Long Reach Air Scrapers

### Features

- Quick change chisel release
- Unique, light weight version
- Air efficient & economical to use
- Available in 3L, 4L, 5L and 6L lengths
- Three tools in one: chipping, scraping, de-scaling

### Applications

- |                   |                      |
|-------------------|----------------------|

- 2 pcs Hex Wrench (6 / 2.5mm)
- 1 pc 1/4" Air Nipple
- Net Weight 6.2kg

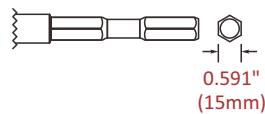

## Long Reach Air Scrapers

### Features & Benefits

- Light weight aluminium tools for flexible vertical and floor application.
- Low air consumption, will run from small 2HP compressor.
- Clean up of paint & chemical spillages.
- Rail track and infrastructure maintenance.
- Peeling Paint removal in hard to reach areas.
- Quickly clean large areas.
- Remove paint from checker plate using needle attachment.
- Removal of glue residues from carpet tiles.
- Use close to wall for finishing large areas.
- Ceramic & linoleum floor tile removal using chisel or scraper.
- "Pointing" tool for mortar removal.
- Weld seam cleaning.
- Plaster and render removal.

## Shock Reduced Air Chipping Hammer

### Features

- Newly Patented Shock Reduced Mechanism.
- Gravity cast Aluminum Alloy 4 bolts handle withstands rugged use.
- Spline locking device prevents loosening of Handle & Cylinder. Grooved barrel for use with retainers.
- Alloy steel made Cylinder & Piston heat-treated for durability.
- Choice of Bushing- round bushing for chisel freely rotating or hexagonal Bushing for use with hexagonal Chisels.

### Application:

The New ZCH series heavy duty Chipping Hammers are designed for rugged use in foundries, shipyards, refineries, fabrication shops and construction applications.

Available in 2" thru 4" stroke versions to offer the power levels necessary for a variety of use from light to medium chipping and trimming through heavy cutting.

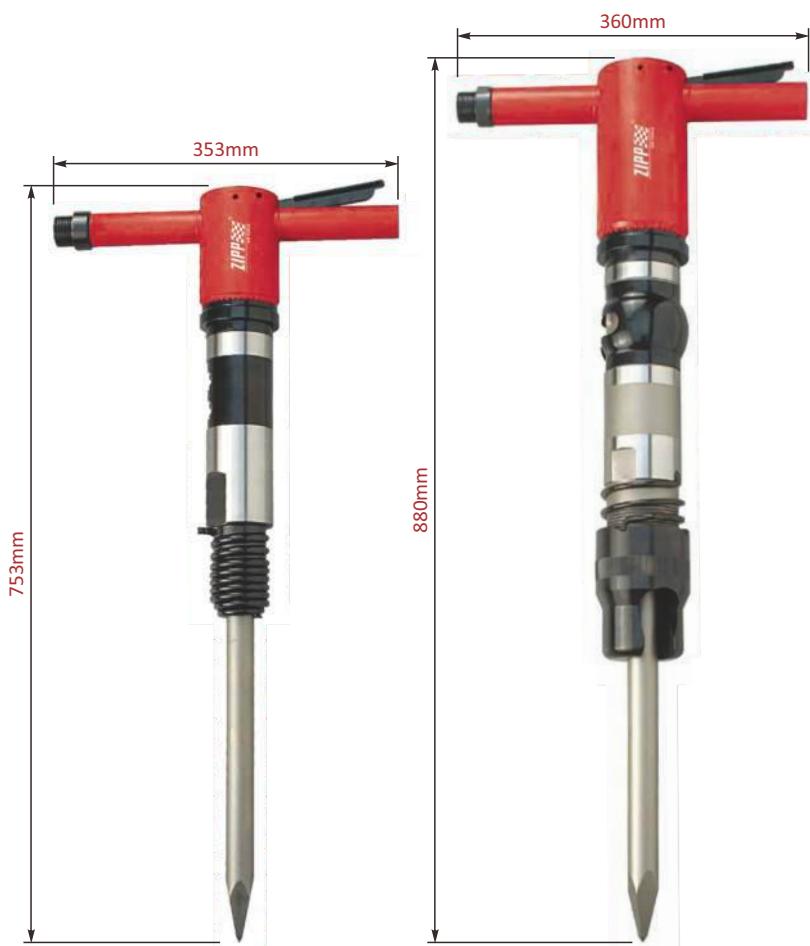

Opt. Retainer type

### Features & Benefits

- Simple structure for less maintenance.
- Powerful hitting power and low reacting.
- Use for destroy the concretes, asphalt path, building and infrastructure.
- Medium size service/general demolition breaker.
- Long stroke cylinder provides maximum impact energy, giving a harder impact than similarly sized standard breakers.
- The best choice for applications in medium hard materials and where you need lower weight or low air consumption.

Recommended air pressure must equal or below @90psi (6.2 bar).

## Chipping Hammer / Clay Digger

### Features

ZCH 2, 3, and 4" stroke chipper has a durable 4 bolt D handle and inside trigger for chipping concrete in parking garages, highway pillars and light demolition and building restoration.

- Machined from premium alloy steel
- Forged G handle
- Cast D handle with inside rubberized trigger
- High shock tool steel piston
- Rotatable exhaust deflector

- Inlet 3/8" with bushing, 7/8" with out bushing
- Available with .680 Round Chuck Model
- ZCH 2,3, or 4, R
- Available with .580 Hex Chuck
- ZCH 2,3,or 4, H
- Standard with oval collar retainer
- Optional Universal BALL retainer available
- Optional whip hose with oiler available

### Features

Designed for light demolition jobs, hardpan and digging clay. Can be used horizontally with D handle and internal trigger.

- Forged alloy construction with one piece cylinder
- 4 bolt back head
- Internal oiler
- Removable front head with latch
- Replaceable check bushing
- Optional muffler

**ZCD-30**  
Clay Digger

DO NOT apply air pressure over 100 psi / 7 bar to these tools.

Model	Chuck Size inch(mm)	Bore inch(mm)	Stroke inch(mm)	Blows Per Minute bpm	Avg. Air Cons. cfm(m³/min)	Overall Length inch(mm)	Net Weight lbs(kgs)	Air Inlet Size inch-NPT/PT

### Features

Designed for light concrete demolition, all angles or confined spaces. D handle with external thumb trigger

- Rotatable exhaust muffler
- One piece machined premium alloy cylinder
- Safe bridged or stepped internal cylinder (piston will not exit bottom of tool)
- Utilizes 11X jumbo steels
- Spring held retainer
- Standard upper and lower hardened sleeves
- Urethane bumper for longer life
- Requires whip hose and oiler

**ZRB-6**

Rivet Buster

### Features

Designed for light concrete demolition, all angles or confined spaces. D handle with external thumb trigger

- ZRB-8 designed for medium & ZRB-11 designed for heavy concrete demolition or cutting rivet heads. D handle with internal variable speed trigger.
- Rotatable rubber exhaust muffler or optional rotatable steel clip exhaust
- One piece machined premium alloy cylinder
- Safe bridged or stepped internal cylinder ( piston will not exit bottom of the tool )
- Standard upper & lower hardened sleeves
- Replaceable auto valve for extended life
- Utilizes 11X jumbo steels
- Spring retainer
- Urethane bumper for longer life
- Screened 1/2" NPT inlet
- Requires whip hose and oiler

Optional Steel clip  
Exhaust**ZRB-8 / ZRB-11**  
Rivet Buster

DO NOT apply air pressure over 100 psi / 7 bar to these tools.

## Hammer Drill / Light Weight Rock Drill / Rock Drill

**ZRD-9**  
Hammer Drill

### Features

Designed for a wide variety of construction and maintenance applications such as driving or setting masonry anchors and drilling holes in concrete, bricks or rock. As a hammer, these tools can be used for chipping, scarifying, scaling and cleaning welds.

- Excellent power-to-weight ratio helps drill holes faster and easier than comparable electric rotary hammers
- Built-in oiler provides continuous lubrication
- Teasing throttle for precise control
- Rotation release button converts tool to a hammer
- Cushioned piston for smooth operation and long life
- With an adaptor, can be used with electric hammer drill bits
- Round spline version available

**ZRD-20**  
Light Weight  
Rock Drill

### Features

Designed for anchoring, shallow holes. D type handle allow horizontal drilling & collaring holes.

- D type handle with thumb trigger
- Forged alloy construction
- Built-in oiler
- Replaceable chuck, 7/8" x 3-1/4" Hex.

**ZRD-30**  
Rock Drill

### Features

Designed for light construction or soft rock drill with high speed & excellent flushing ability.

- Forged alloy construction
- Requires constant feed inline oiler
- Replaceable chuck, 7/8" x 4-1/4" or 7/8" x 3-1/4"
- Single throttle with three drilling speed: Stop, Blow, 1, 2, 3. 1 or slow is for collaring holes and remove drill from drilling hole.
- Optional wet kit available
- rpm: 240
- Water Consumption: 4.8 l/min

**ZRD-50**  
Rock Drill

### Features

Designed for medium to heavy duty construction drill suit for drilling medium rocks.

- Forged alloy construction
- Requires constant feed inline oiler
- Replaceable chuck, 1" x 4-1/4" or 7/8" x 4-1/4" or 7/8" x 3-1/4"
- Adjustable drilling speed
- Optional muffler & wet kit available
- rpm: 180
- Water Consumption: 6.7 l/min
- Performance in Granite at 85-90psi(6-7bar): 24.4"/m(62 cm/m)

**ZRD-75**  
Rock Drill

### Features

Designed for heavy duty Quarry drill suit for drill granite.

- Forged alloy construction
- Internal oiler
- Replaceable chuck, 1" x 4-1/4" or 7/8" x 4-1/4"
- Three drilling speed: Stop, Blow, 1, 2, 3. 1 or slow is for collaring holes and remove drill from drilling hole.
- Optional wet kit available
- Optional muffler
- Optional constant feed inline oiler ( 6' 3/4" whip )
- rpm: 200

## Pavement Breaker

### Features

Designed for light demolition works. 2" to 4" concrete sidewalks, pavement and breaking asphalt.

- One piece cylinder & 4 bolt back head
- Forged alloy construction
- Replaceable chuck bushing
- Removable front head
- Internal oiler
- Optional muffler

**ZPB-30**  
Pavement Breaker

### Features

Designed for light or medium demolition works. 2" to 4" plus hard concrete, bridge deck resurfacing and asphalt.

- 4 bolt back head
- Forged alloy construction
- Replaceable chuck bushing
- Removable front head (bolt on)
- Tool requires inline oiler
- Optional muffler

**ZPB-40**  
Pavement Breaker

### Features

Designed for medium demolition works on rocks and 3" to 4" thick concrete pavement and asphalt.

- 4 bolt back head
- Forged alloy construction
- Heavy duty side rod
- bolts and springs
- Replaceable chuck bushing
- Removable front head
- Internal oiler
- Optional muffler

**ZPB-60**  
Pavement Breaker

### Features

Designed for heavy demolition works, rocks, reinforced concrete and 5" to 6" plus thick concrete and pavement.

- 4 bolt back head
- Forged alloy construction
- Heavy duty side rod bolts and springs
- Replaceable chuck bushing
- Removable front head
- Internal oiler
- Optional muffler

**ZPB-90**  
Pavement Breaker

**DO NOT apply air pressure over 100 psi / 7 bar to these tools.**

## Backfill Tamper / Trench Digger

### Features

This tamper is designed for soil compaction, temporary filling of holes or asphalt packing. Applications range from foundation and pavement repair to the installation of power or telephone poles. Comes with standard 6" cast iron butt.

- Side handle throttle
- Precision ground alloy cylinder
- Requires whip hose ( oiler optional )
- Optional butts - Pole of half moon butt / 6" Aluminum butt

**ZBT-6**  
Back Fill Tamper

DO NOT apply air pressure over 100 psi / 7 bar to these tools.

Model	Bore inch(mm)	Stroke inch(mm)	Blows Per Minute bpm	Avg. Air Cons. cfm(m³/min)	Taper	Overall Length inch(mm)	Net Weight lbs(kgs)	Air Inlet Size inch-NPT/PT
ZBT-6	1.5(38)	5.5(140)	800	38.5(1.1)	804	48.25(1226)	40(18)	1/2(13)

### Features

Designed with long reach handle for digging in trenches & foundations. Used for clay, hardpan or frozen ground.

- 4 bolt back head & one piece cylinder
- Forged alloy long handle
- Removable front head
- Replaceable chuck bushing
- Internal oiler
- Optional muffler

**ZTD-19**  
Trench Digger

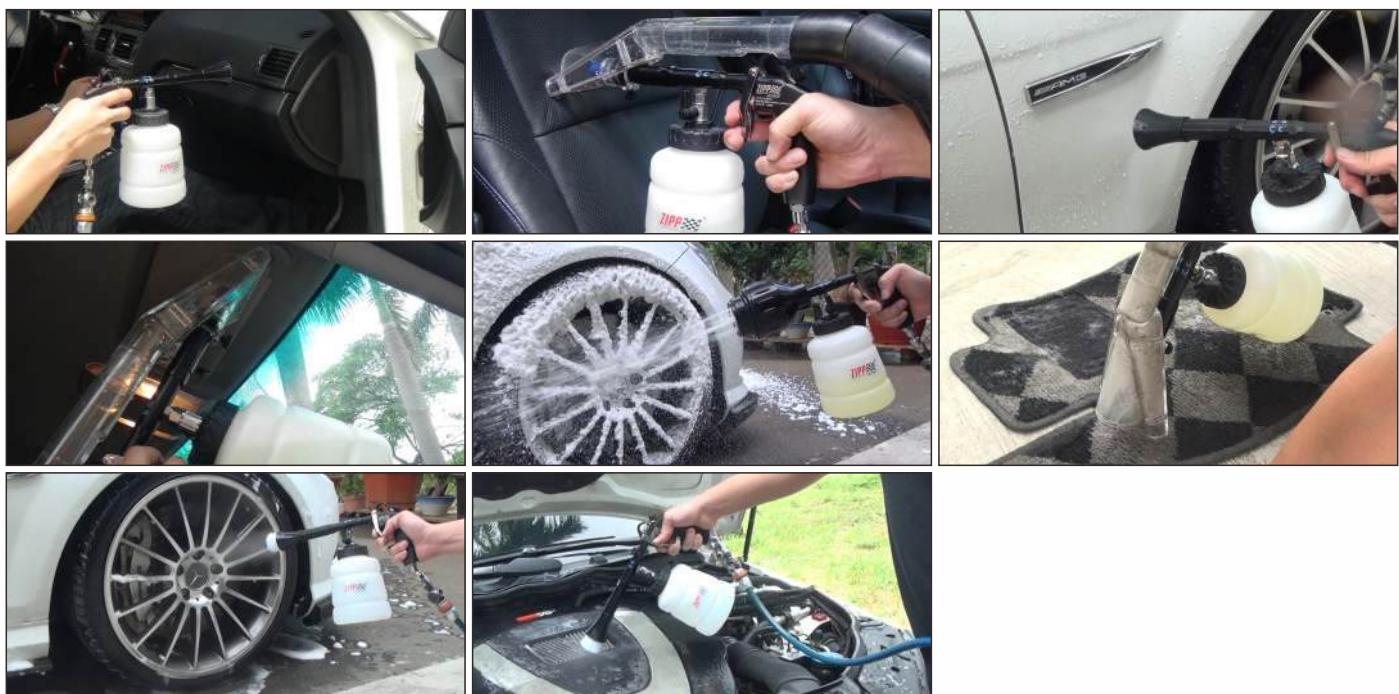

DO NOT apply air pressure over 100 psi / 7 bar to these tools.

Model	Chuck Size inch(mm)	Bore inch(mm)	Stroke inch(mm)	Blows Per Minute bpm	Avg. Air Cons. cfm(m³/min)	Overall Length inch(mm)	Net Weight lbs(kgs)	Air Inlet Size inch-NPT/PT

## Storm Cleaning Gun / Foam Gun

### Features

- Patented water atomization mechanism.
- Patented 2 in 1 cap for use with regulator bottle or PET bottles.
- Easiest and fastest wet or dry cleaning tool for automotive interiors, engine bay, carpets, floor mats, etc.

The Handheld high-intensity rotating air flow dust blow gun. It is different from the commercially available blow gun. It is designed with a special hose and uses high-pressure air to generate high-speed rotation and then develop high-intensity rotating air flow which can clean dust / foreign matter / dewatering.

## Features

- Riveting tools developed and designed specifically for solar panel Installation.
- The nozzle and claw are CNC processed by special alloy steel material to reduce the frequency of replacement of worn parts.
- Built-in brushless motor system, durable and stable working performance.
- Transmission mechanism adopts screw mechanism to meet the requirements of large pulling force operation.
- The internal parts of the whole machine achieve integrated design scheme, excellent production, safe and reliable.
- The starting switch is non-contact induction switch, which greatly improves the working life of the switch.
- The charger and battery meet the CE safety standard, fireproof and explosion-proof, using temperature control protection, can realize 1 hour fast charging.

## Cordless Brushless Rivet Tool

### Features

- Special Anti-off Nozzle design to avoid rivets failing down.
- Automatic Pin Removal, (no need to tilt the tool) and make shortest processing time.
- A larger riveting stroke (28mm), capable of riveting 6.4x22mm blind rivets.
- If specially riveting 6.4mm structural rivets such as hemlok, monobolt, magna-lok, or 6.4mm stainless steel rivets should be matched with 18V / 4.0Ah Battery.

### Accessories

- ZCR2028BL Handle
- Battery\*2
- Charger
- 5 Nosepieces (3.2/ 4.0/ 5.0/ 6.0/ 6.4 mm)
- Special Wrench
- Instructions
- One Big Mandrel Collector and One Small Mandrel Collector
- High Quality Tool Box

## Cordless Impact Wrench

**ZCIW9562** Friction Ring Anvil 3/8" Brushless Impact wrench

**ZCIW9562-B** Friction Ring Anvil 3/8" Brushless Impact wrench-Bare Tool

### Features

- Brushless motor delivers up to 400Nm of torque.
- 3 speed/torque selections.
- Smart reverse mode for loosening bolts/nuts, tool stops impact and rotation.
- Compact size, lightweight, suitable for long-term operations.
- Continuously variable speed switch makes locking work easier to control.

All models supply with 2 pcs BT-DX0051 4.0Ah batteries, 1 pc CG-DX0030 charger in Blow Mold Case.

Model	Hex Collet inch(mm)	Max. Torque ft-lb(Nm)	Free Speed rpm	Impact Per Minute ipm	Voltage DC	L*W*H mm	Net Weight lbs(kg)

- Max. Bolt Diameter: M20

**ZCIW9566** Friction Ring Anvil 1/2" Brushless High Torque Impact Wrench

**ZCIW9566-B** Friction Ring Anvil 1/2" Brushless High Torque Impact Wrench-Bare Tool

**ZCIW9567** Friction Ring Anvil 3/4" Brushless High Torque Impact Wrench

**ZCIW9567-B** Friction Ring Anvil 3/4" Brushless High Torque Impact Wrench-Bare Tool

### Features

- Professional-grade electronically controlled brushless motor for long service life.
- high torque wrench, 4-stage speed adjustment.
- Intelligent reverse mode, the tool will stop impact and rotation after the bolt/nut is loose.
- All-metal gearbox, high strength and long life.
- Continuously variable speed switch makes locking work easier to control.
- Excellent shock-absorbing design greatly improves durability.

All models supply with 2 pcs BT-DX0051 4.0Ah batteries, 1 pc CG-DX0030 charger in Blow Mold Case.

- Max. Bolt Diameter: M24

## ZL-9151-B

20V 1000/2000Lm LED Work Light-Bare Tool

### Features

- Compact size, removable and light weight.
- 180° tilt six position lamp head adjustment.
- USB port to charge mobile devices.
- Two brightness adjustment modes.

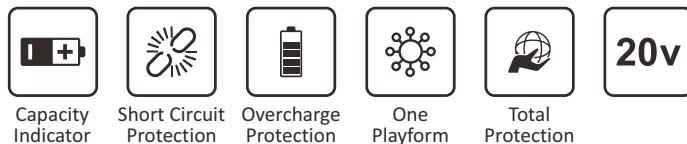

All model supplied bare, battery and charger need to purchase separately.

Model	Low output	High output	Color temp.	USB port output	Voltage DC	Weight with Li-ion battery pack lbs(kgs)
ZL-9151-B	1000 Lm, Battery run time 8Hours	2000 Lm, Battery run time 4Hours	6000K~7000K	5V/1A	20	3.86(1.75)

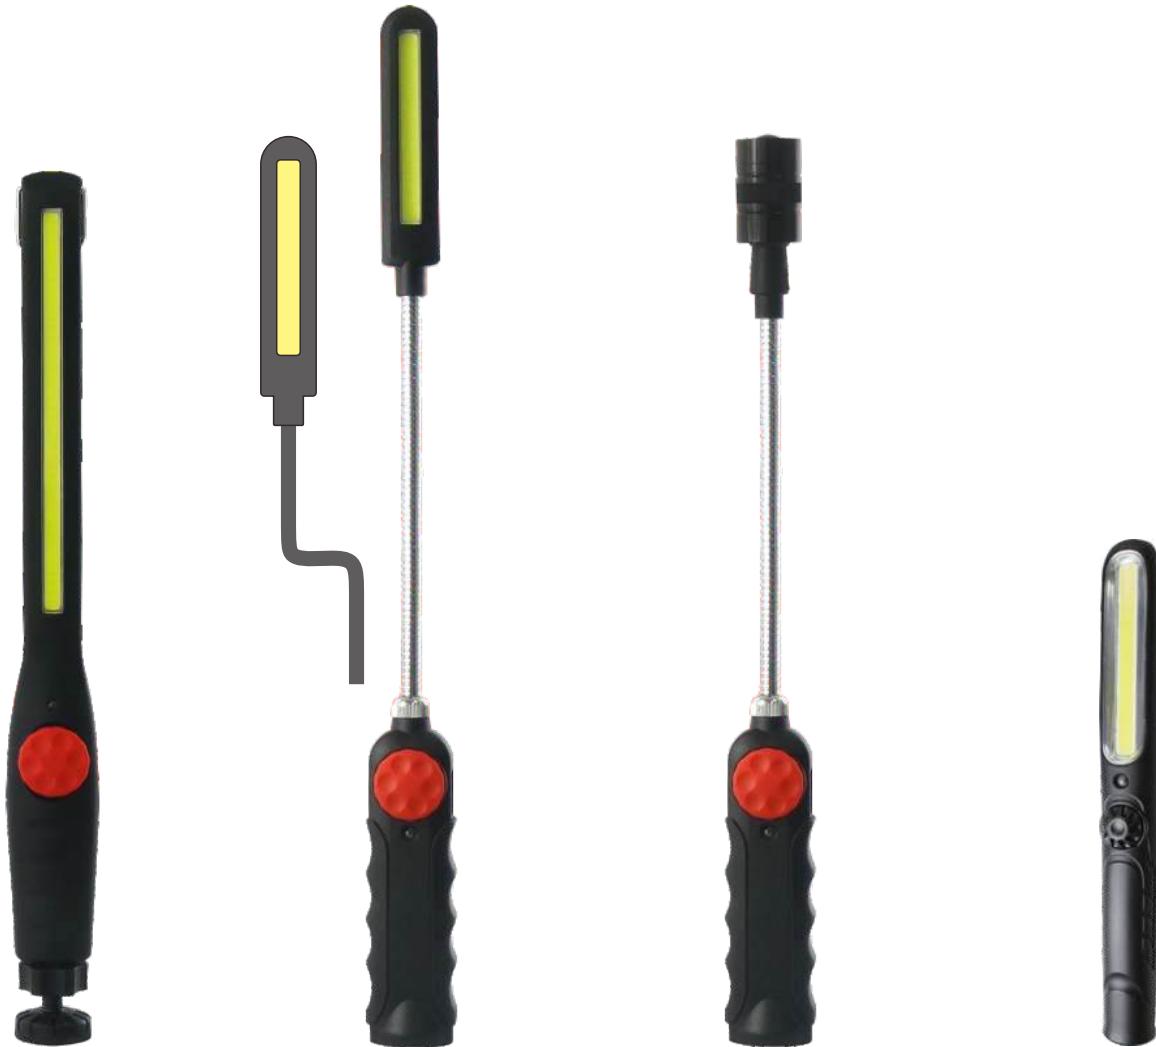

### Features

- Soft grip provides the best protection from falling off.
- Robust bracket & structure protects battery cells and increases the cooling effect.
- Best cooling & ventilation design effectively reduce battery temperature.

### Optional

# Certified Cordless Screwdriver Genius-30 Series According to ISO 5359, VDI / VDE 2647

## Patented clutch system

- The latest patented two-stage clutch design, CMK high-precision locking.
- Over a million use lifespans.

## Patented power-saving motor

- Brushless motor, maintenance-free.
- Patented motor with the latest technology, high performance and efficiency.

## Ergonomic grip design

- Safe, special non-slip material grip.
- LED work light.
- Excellent sense of balance.

## New board design

- fault display function.  
( optional software )

## Battery

- High-capacity lithium battery: new lithium battery. ( lightweight )
- Patented energy-saving mode: power-saving mode, normal mode, full-on mode, longer battery life and locking times.
- Long-lasting battery: 12.0V/4.0Ah

 Certified Cordless Screwdriver

## ECB series Torque control Impact & Pulse wrench

- ECB18IM4300** Friction Ring Anvil 18V Cordless Torque Control Impact Wrench 300Nm - Kit  
**ECB18IM4300-B** Friction Ring Anvil 18V Cordless Torque Control Impact Wrench 300Nm - Bare Tool

### Features

- Brushless EC motor, compact, more functions, longer run time, service free.
- Torque selections after calibration provide precise torque control for a wide range of applications.
- Smart reverse mode is used when the bolt / nut is loosened, the tool stops impact and rotation, then slowly removes the bolt / nut.
- Variable motor output control.
- LED illuminates work area with 30 second delay after stopping the tool.
- Ergonomics slim handle with soft grip for comfortable use.
- Connect to PC or NB through Bluetooth to calibrate the controllable torque range of the tool.
- Adjustable torque control parameters ( working time, bolt size, QC range, etc. )
- Fast target torque setting within the controllable torque range.
- Individual parameter storage for fast program reload to suit each application.
- Connect to PC or NB through Bluetooth to collect data.
- Connect to internet via software to upload data to the cloud server.

Kit model supply with 1 pc BT-DX0050 4.0Ah batteries, 1 pc CG-DX0030 charger in Blow Mold Case.

Model	Capacity inch(mm)	Max. Torque ft-lb(Nm)	Voltage DC	Weight with battery pack lbs(kgs)

## Features

- Random orbital electric sander use advanced brushless DC motor technology, without the need for an external power transformer.
- High-abrasion electric sander with 5 mm sanding stroke, ideal for coarse and intermediate sanding with effective dust removal.
- Connect to multi-hole sanding discs with radial holes.
- Powerful, low-noise and maintenance-free direct drive through a brushless 350W EC motor.
- Sanders are vacuum-ready using multi-hole backing pads with hook and loop attachment.
- For effective and effortless dry sanding of wood, plastic and composite parts, drywall as well as paints, varnishes and fillers.
- Digitally controlled variable speeds from 4,000 to 10,000 rpm to provide the ideal finish for a variety of applications. Perfectly balanced center of gravity for effortless work.

## Industrial Vacuum Cleaner

### Features

- Automatic syncs by both air tool and power tool.
- Lightweight and Powerful.
- Triple Filtration System.
- Light weight composite housing design.
- Use for both Electric & Air sanders.
- Two types startup control: manual or automatic startup.
- Speed adjustment for various sanding application.
- Ideal for wood furniture industry & automotive body shops.

## Universal Swivel Air Inlet Joint

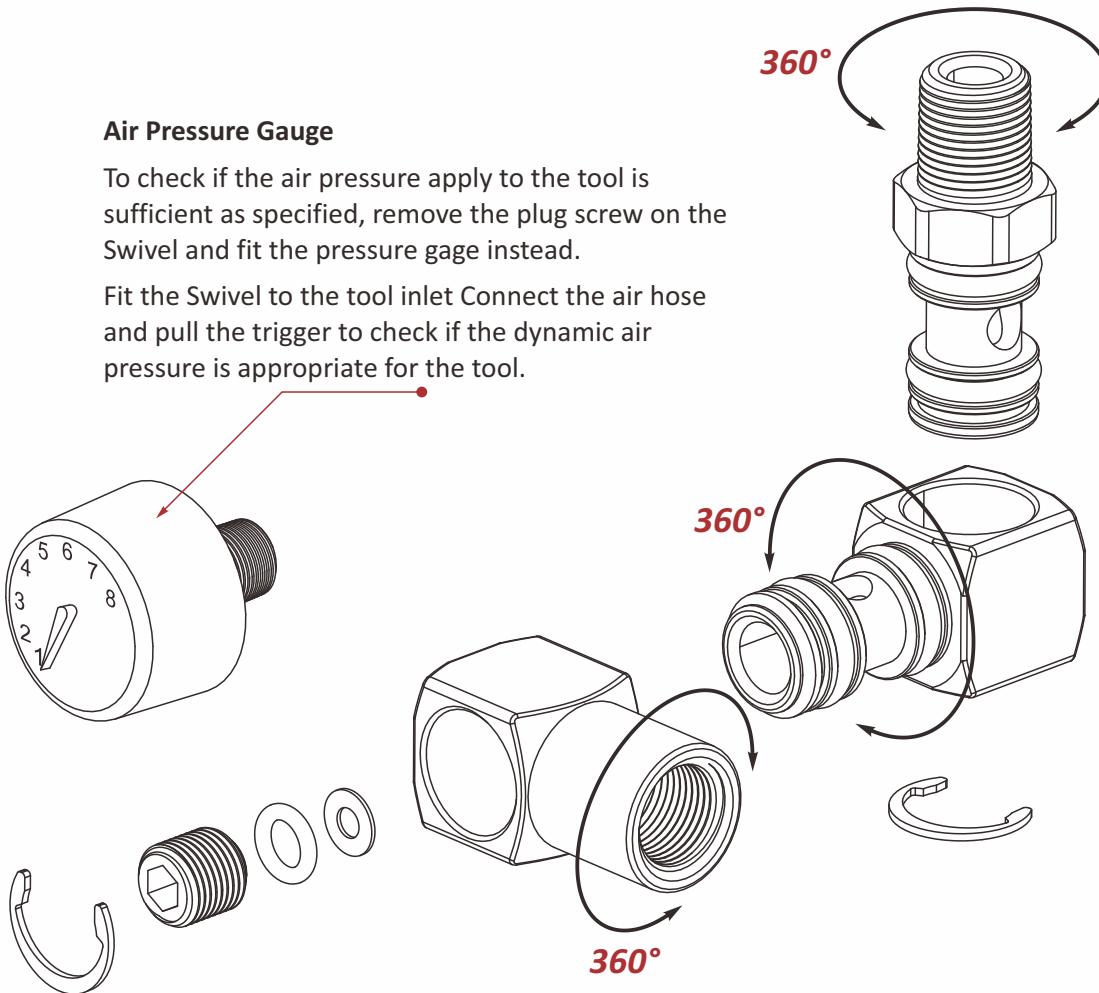

### ZIPP SWIVEL-360° Free-directional rotation air hose universal joints.

- The ZIPP SWIVEL is a patented, uniquely designed "Universal Swivel Air Inlet Joint" that connects portable air tools to an air line. it swivels 360° to allow the hose hanging straight down to the floor no matter how the tool is held.
- The ZIPP SWIVEL is available in 5 types covering most popular sizes of Air tools in the field for superior maneuverability while increasing operator comfort and productivity.
- It will increase the life of air hoses and inlet fitting as well.
- The ZIPP SWIVEL can be efficiently used on Air Drills, Grinders, Polishers, Sanders, Staplers, Spray Gun, etc. It is applicable with percussive or impact tools.
- All types can be attached with a miniature 1" air pressure gauge for checking the most precise dynamic working air pressure right at the tool inlet.
- Unique pressure relief valve available as an option to prevent the tool working under abnormal higher air pressure.

#### Air Pressure Gauge

To check if the air pressure apply to the tool is sufficient as specified, remove the plug screw on the Swivel and fit the pressure gage instead.

Fit the Swivel to the tool inlet Connect the air hose and pull the trigger to check if the dynamic air pressure is appropriate for the tool.

## Spring Balancer

### Features

- Cost-efficient, practical and compact. It uses rotatory Adjusting Cover for easier tension adjustment without burden.
- Fast and convenient installation. In addition, anti-falling steel wire mounting holes are provided, which must be installed to avoid the failure of the original mounting location.
- The housing is made of rustproof iron shell. The steel wires and nylon ropes are available for option. Further, a ball-shape damper also can stop tool at a fixed height in its recover stroke.

# Spring Balancer

## Features

- Labor Saving: The spiral type outputs consistent suspension force.
- Productive: The user can easily drag the tool to where he wants and stop at easier access position to achieve smoother and more efficient operation.
- Efficient: The operator can handle the tool easily; thus, avoiding wasting time and consuming labor by lowering the tool and picking it again when taking the object at the same time.
- Cost-efficient: Rigid mechanism design makes the product more durable while bringing down the maintenance cost.
- Anti-Falling Device will lock the cable in case of spring breakage.

## Spring Balancer

### Features

- Adopting 8.0 mm inner diameter hose to provide enough air flow to air tool and equipment.
- It achieves neat and orderly production line for enhancing the working efficiency.
- Tool anti-falling device is provided in case of the spring breaking.
- The installation is fast and convenient with 360 degrees install hook.
- Worm gear provides more precise force adjustment.

# General Safety Guide

 Some dust created by power sanding, sawing, grinding, drilling, and other construction activities contains chemicals known to the public to cause cancer, birth defects or other reproductive harm.

**WARNING** Some products with high pressure system and the following safety precautions must be followed at all time along with any other existing safely rules.

1. Read all manuals included with each product carefully. Be thoroughly familiar with the controls and the proper use of the equipment.
2. Only persons well acquainted with these rules of safe operation should be allowed to use the air tool.
3. Do not exceed any pressure rating of any component in the system.

 **WARNING** Do NOT exceed the maximum operating pressure of the air tool (normally 90PSI).  
The air tool could explode and result in death or serious injury.

4. Disconnect the air tool from air supply before changing tools or attachments and during non-operation.

 **WARNING** Always wear approved safety glasses with shields & hearing protection.

5. Do not wear loose fitting clothing or apparel which contains loose straps or ties, etc. which could become entangled in moving parts of the tool and results in serious personal injury.
6. Do not wear jewelry, watches, identifications, necklace. etc. when operating any tool, they may be caught in moving parts and result in serious injury.
7. Do not depress trigger when connecting the air supply hose.
8. Always use attachments designed for use with air powered tools. Do not use damaged or worn attachments.

 **WARNING** DO NOT use hand tool sockets. Use impact quality sockets only.

9. Never trigger the tool when not applied to a work object. Attachments must be securely attached.  
Loose attachments can cause serious injury.
10. Protect air lines from damage or puncture.
11. Never point an air tool at oneself or any other person. Serious injury could occur.
12. Check air hoses for weak or worn condition before each use. Make sure all connections are secure.
13. Keep all nuts, bolts and screws tight and ensure equipment is in safe working condition.
14. Do not put hands near or under moving parts.

 **WARNING** Do NOT misuse the product, excessive exposure to vibration, work in awkward position and repetitive work motion.

## Maintenance

Air tools require lubrication throughout the lifetime of the tools. The air motor and bearing use compressed air to power the tool, due to the moisture of the compressed air will rust the air motor and other parts inside of the tools, therefore lubrication is required air daily. Failure to lubricate the air tool properly will dramatically shorten the life of the tool and will void the warranty.

 **WARNING** This air tool requires lubrication BEFORE initial use. also before and after each additional use.

### To lubricate the air tool manually:

1. Remove any attachment on the drive of air tools such as sockets, chisels and etc.
2. Disconnect the tool from the air supply source, place the air inlet faces up.
3. Depress the trigger or throttle and place about 5 c.c. of air tool oil into the air inlet.  
(Depressing the trigger or throttle will help circulating oil in the motor. )

#### NOTE:

Use SAE #10 grade oil if air tool oil is not available.

Keep out of the reach of children. If taken internally, do not induce vomiting, call a doctor immediately.

4. Connect the tool to air source, cover the exhaust end with a towel and run for about 20 to 30 seconds.

 **WARNING** Any excess oil in the motor is immediately expelled from the exhaust port. Always direct exhaust port away from people or objects.
